## FIRM HAND TO FRANCE

### Baldwin Advised to Show Teeth

Policy on Poincare's Note  
Will be Outlined to  
Britain Thursday

Premier May Fall if He Fails  
to Show Courageous  
Front to Ally

BY JOHN STEELE.  
(BY CABLE-RECEIVED DISPATCH)  
LONDON, July 31.—It has now been definitely announced that Prime Minister Baldwin will make a statement on the British policy with regard to international affairs on Thursday next, before the adjournment of Parliament.

What that statement will be has not yet been decided and there is a struggle in the Cabinet between the "friends of France" and the ministers who advocate a definite and separate British policy.

CABINET MEETS  
The Frenchophile are led by Lord Curzon, Under-Secretary for Foreign Affairs, and are composed mostly of the minor ministers, while Lord Curzon, Mr. Baldwin and all the heavyweights of the ministry favor the British policy.

The Cabinet met for two hours today and will meet again tomorrow and probably on Thursday as well before the final decision is taken. Great pressure is being brought to bear on Mr. Baldwin by business interests to declare for a separate British policy immediately.

It is felt here that it is hopeless to try to reconcile the British and French points of view and that to

## DEATH EXPOSES MINISTER

Highly Respected Wisconsin Pastor Dies in Company  
of Woman; Dual Life Is Revealed

(EXCLUSIVE DISPATCH)  
MINNEAPOLIS, July 31.—Rev. N. L. Lockrem, venerable Norwegian Lutheran minister of Superior, Wis., died in the arms of a woman of the streets, in a cheap hotel of the Minneapolis hotel district Monday night. The tragic death of the preacher, prominent in church, social and civic circles, a man of 60 years, married and a grandfather, revealed a dual life which police believe the clergyman had lived for ten years.

Sunday he presided at services in his church in Superior. Monday he came to Minneapolis, registering at the Rogers Hotel. The and came in a lodging-house hotel when a woman, hair disheveled and hysterical, ran from a room and took refuge in the arms of "Mr. and Mrs. Larson," screaming, "He is dead! He is dead!"

DUAL LIFE REVEALED  
Investigation revealed that Rev. Mr. Lockrem had been coming to Minneapolis on an average at once every three weeks for the last five

## DOCTORS EXPECT RECOVERY

President's Confidence in Gen. Sawyer Pointed Out  
by Illinois Medico as Reassuring Phase

(EXCLUSIVE DISPATCH)  
CHICAGO, July 31.—Chicago physicians in commenting on the illness of President Harding find several hopeful conditions which may aid materially in the recovery of the Chief Executive. Confidence in Brig.-Gen. Sawyer's ability to bring his patient through the crisis safely was expressed by a number of doctors who are acquainted with Gen. Sawyer's professional skill.

One of the most reassuring phases of the President's illness, declared Dr. Gilbert Fitzpatrick, member of the Illinois Board of Medical Examiners, is the faith which President Harding has in Gen. Sawyer.

"Perhaps one of the most hopeful conditions in the illness of President Harding is the great confidence that the distinguished patient has in his physician," said Dr. Fitzpatrick. "It is a confidence that is born of many years of close association and experience in personal life."

Dr. Fitzpatrick, who is a personal friend of Gen. Sawyer, sent him the following telegram: "Your prayers and good wishes are with you every minute in this, another crisis in your official relationship to the President and our country. The medical profession has the greatest confidence in your ability to bring your successful management of Mrs. Harding's illness one year ago."

Dr. Burton Hazeltine, chief of the department of head surgery of the United States Hospital No. 25 at Fort Sheridan during the war, asserted the treatment being administered by your successful management of Mrs. Harding's illness one year ago.

While the purpose of the loans was not made public, it is understood that the dollar credits would be used to finance purchases, particularly of wheat in this country. The Swiss government particularly specified that dollar credits were wanted, which confirms the belief that the money will be spent in this country and explains why no effort was made to arrange the financing in London, where interest rates are slightly lower than they are here.

Suspended Dry Officer Not to Be Reinstated  
SAN FRANCISCO, July 31.—C. C. Harvey Wheeler, suspended recently as chief deputy of the Federal prohibition officers here, "will not return to prohibition work in California," Samuel P. Rutter, the director of the office announced today.

Wheeler was suspended a month ago after special investigators from the office had gone into the bonded warehouses of a large quantity of the liquor seized in a raid at Monterey a year ago. Rutter announced today that Wheeler was merely going on his vacation, but that the notorious given his case would destroy his usefulness in the State, although no charges of any kind have been proven against him.

LADY ASTOR'S DRY LAW ON STATUTES  
LONDON, July 31.—Royal assent was given today to Lady Astor's liquor bill, thus formally placing it upon the statute books. The bill which prohibits the sale of intoxicating liquors to any person under 18 years old, was passed by the House of Lords last Tuesday.

## JUST WAIT IN CAPITAL

### Leaders Think of Future

President's Illness Reveals  
Peculiar Situation;  
Advisers Absent

Break in Harding's Health  
Comes as It Did to  
Woodrow Wilson

(EXCLUSIVE DISPATCH)  
WASHINGTON, July 31.—While Washington anxiously awaits news from the sick room of the President, the residents of the city are thinking not only of the present with its grave possibilities, but of the future and what should be done to make the country instant that its chief executives shall conserve their health and strength.

Woodrow Wilson broke under the strain of work while on a western tour, undertaken, as he believed, to fulfill an obligation to his country.

Warren G. Harding also has broken under the strain of a like journey, undertaken for a like purpose.

The President, a few weeks before he began his western journey, said he felt that the country that by personal observation and personal study he should be able to determine upon some policy for the economic salvation of the great territory of Alaska.

THOUGHT OF PEOPLE  
At the time that the President said this concerning Alaska, he also indicated that the country should know definitely that his contemplated trip was devoid of all political and partisan motives, and his object simply was to give as clear an account as he could of his attempts at a proper public stewardship.

Theodore Roosevelt stood the strain of many journeys, but he died at the age of 60, having "lived to the hilt."

William H. Taft traveled more than any other American President, but Taft made work easy for himself, and his object simply was to give as clear an account as he could of his attempts at a proper public stewardship.

THE PRESIDENT'S HEALTH  
Washington officials realize there are lessons in the experience of Wilson and Harding. In the past these lessons should be learned and the people should insist that the President's health should always be protected, so far as his physical condition is concerned, to be a strong man. But his color has been somewhat pale, and he has had some slight heart trouble has been more than suspected.

Wilson's illness really began in Seattle, as did Harding's, although he did not give up the fight until he was in the White House. It was in Seattle that Mr. Wilson's sleepless nights began, carrying with them a head from which he could get no relief.

Stopping over the week-end in Seattle, Mr. Wilson had his room changed from the "Presidential suite" on the second floor of the Washington Hotel to a quieter retreat just under the roof. But rest would not come there. A President had been marked for physical action.

The two lone Cabinet members in Washington, Secretary Hughes and P. M. Gen. New, exchanged many messages during the day. Both feel the situation keenly. Harry and best friends, both politically and personally.

ADVISERS ABROAD  
Two of the President's Cabinet are in Europe—Secretary Mellon and Secretary Davis. This is in itself an unusual situation, possibly without precedent, for Cabinet members are usually in the White House.

## PRESIDENT HARDING WINNING HIS BATTLE AGAINST DISEASE

### Brig.-Gen. Sawyer Declares Patient Now on Road to Recovery; Mrs. Harding Brave and Cheerful; Nation Rejoices at Improvement

(BY A. P. NIGHT WIRE)  
PRESIDENTIAL HEADQUARTERS, PALACE HOTEL, SAN FRANCISCO, July 31. President Harding is gaining in his fight against illness. His personal physician, Brig.-Gen. Sawyer, in an informal statement issued at 9:10 p.m., said his patient was "doing well" and had just had the best and most natural sleep since his illness began.

Gen. Sawyer's statement was given newspaper men who met him in the corridor as he started out for a walk, his first moment of recreation since Sunday when the President was brought to San Francisco, now admittedly a very ill man.

"I am taking my first vacation," said the general as he and Mrs. Sawyer, both smiling, started for the elevator. The general's demeanor was a marked contrast to the serious expression he wore when he met newspaper men twelve hours before, prior to the day's first consultation of physicians.

FAVORABLE SYMPTOMS  
Improvement had been shown in the President's pulse, temperature and respiration and also in his eliminative faculties. The latter, the general said, was a highly favorable symptom.

The President's cough has been disappearing, the general said, adding that this also was a very favorable indication. The Executive had not coughed for six hours and there had been no expectation of any consequence in that time, he went on.

The President, on awakening from his sleep, which lasted for about one hour, asked for nourishment and was given a glass of milk. The President's diet at present consists of two egg-nogs a day, fruit juices to relieve thirst whenever desired; a glass of milk every two hours and for breakfast, toast and sometimes an egg.

HOMOEOPATHIC EGG-NOGS  
"The egg-nogs," the doctor explained, laughingly, were "homoeopathic"—eggs shaken up with milk.

(Continued on Second Page)

## PRESIDENT SAYS AMERICA RESTS SECURE IN PEACE

Bay City Foreign Relations Speech  
Termed Remarkable Record  
of Constructive Worth

(EXCLUSIVE DISPATCH)  
SAN FRANCISCO, July 31.—President Harding's illness has not impaired his vision or limited his efficiency as an administrator. Today he directed that the speech he had prepared for delivery tonight in San Francisco on the foreign relations of the United States be released to the newspapers of the United States for the general information of the public on what this administration has accomplished in relation with our world neighbors.

This action by the President came after some of his advisers had recommended that no statement should be made of what might be construed as controversial in character. The President prepared this speech some time ago and it was distributed to the newspapers for publication on delivery. It is regarded as the strongest and most comprehensive compilation of the successful efforts of the Harding administration to adjust the relations of the United States in world affairs with other nations. It is predicted that it will be a real text book for future reference on matters of foreign policy.

NO HESITANCY  
President Harding has not hesitated to state his position if possible in a stronger manner than ever on the necessity of the World Court, even though this statement is made in the home of Hiram Johnson, who is the only outstanding critic of the President's plan. His reference to the tragedy of Russia and his hopeful expectation that our relations with Mexico will be speedily adjusted by the joint committee now sitting in Mexico City are impressive in their judicial sincerity.

CAREFULLY PREPARED  
The San Francisco speech was to deal with our foreign relations, and was a carefully prepared document. But for his illness the President would have delivered the speech according to schedule; but this being prevented, he now feels that it should go to the public through the medium of the press and for the information and consideration of the people. Therefore he has directed that the speech be released.

For the Seventh Consecutive Month  
"TIMES" ADVERTISING  
BREAKS 1922 RECORD

2,327,374 separate lines of advertising were printed by the Los Angeles Times for the month which ended yesterday. This not only exceeds the Times big volume of the corresponding month a year ago, but goes on record as the biggest July advertising score in the history of the newspaper.

Last year The Times led all other newspapers in the world in volume of advertising. It has set a still swifter pace each month during the current year. Its volume for July exceeds that of the nearest local paper by 1450 columns, or the equivalent of approximately six full pages of advertising for every day throughout the month.

(Continued on Second Page)

## THE DAY'S NEWS SUMMED UP

THE SKY. Cloudy. Wind at 5 p.m. southwest; velocity, 5 miles. Thermometer, highest, 85 deg.; lowest, 66 deg. Forecast: For Los Angeles and vicinity, Wednesday, partly cloudy. For complete weather data, see last page of this section.

SPANISH. A digest in Spanish of the most important news events of the day will be found on the fifth page in this section of The Times.

LOS ANGELES HARBOR NEWS.  
Latest news of the arrivals and sailings of vessels in and out of Los Angeles Harbor will be found on Page 17, Part I.

THE CITY. Record crowds thronged at exposition yesterday for Lions Club day special features are announced for today. At the conclusion of testimony in the hearing of Mrs. Wallburga O'Connell, accused of the murder of her husband, defense counsel moved for dismissal of the charges. Federal grand jury has returned indictments against two Texas oil corporations and thirty individuals, charging misuse of the mails.

New angle was injected into the mysterious disappearance of Henry Duffy, theatrical producer and actor, when a film comedian revealed the asserted disappearance, eight years ago, of an actor of the same name in Freepoint, Ill.

Monthly reports of the local postoffice, customs and internal revenue departments show a healthy increase over business transacted in July, last year.

Public Works Committee of the City Council heard arguments yesterday for and against changing name of Sunset Boulevard to Hollywood Boulevard.

Young girl, victim of attack at harbor, reported in grave condition, and four persons have been arrested, and a woman.

Hugh R. Ebbelmann, real estate man, who disappeared in February, 1921, just before the grand jury returned indictments against him, has been returned to Los Angeles from St. Louis.

Final decision on site for Veterans' Hospital. Hospital promised by end of week, with two sites in San Fernando Valley being considered.

PACIFIC SLOPE. Girl reported beaten by pair at Long Beach found at local hospital.

## "I wouldn't blame you"

I WOULDN'T blame the smoker who criticized me personally if he bought a La Palina that did not live up to all I have said about it. I know that the tobacco rolled in each La Palina contains only the richest part of perfect leaves. I know that such care is exercised in our factories that there should never be an inferior cigar allowed to wear the La Palina band.

I am as confident of the quality of each La Palina shipped from our factories as though I had handed it to you myself. And I know you will appreciate and enjoy this quality whenever you buy a La Palina from a dealer who keeps his stock in good condition.

The mild, full-bodied flavor of La Palina is the result of an exclusive combination of fine imported tobacco. I keep on hand, in advance of manufacturing requirements, more than three and one-half million dollars' worth of this tobacco. It is cured and tested and the proper combination made in advance. The varying strengths and flavors of crops of different years are blended in exactly the proportions that produce the one flavor you recognize as La Palina.

## TROOPS STILL HOLDING AMOY

Chang Tse-Ping Flees, but Soldiers in City

Occasional Shooting Takes Place During Day

Three Americans Fired on Trying to Land

(BY CABLE AND ASSOCIATED PRESS) AMOY (China) July 30.—Soldiers of Chang Tse-Ping, the ally of Sun Yat-sen, still held this city today despite desultory firing throughout last night by gunboats from the Peking government which steamed into the harbor yesterday afternoon. Casualties were few but all communication between the international element and the business section of Amoy had been stopped today and foreign business men were not allowed on foreign concessions. The British Consul, attempting to reach a ship flying the British flag, was fired on by soldiers from the water front. He sent a request to Hong Kong for British gunboats.

**TROOPS ARRIVE**  
Two more Chinese gunboats reinforced the two that arrived yesterday and two transports bearing 4000 northern troops were reported outside the harbor. The soldiers in Amoy are expected to start looting, since Chang Tse-Ping himself has fled to Shanghai. There was occasional firing all day yesterday, shots striking residences in Kulangsu. A customs launch was fired on while leaving the harbor and a man named Butler was fired on while trying to reach Kulangsu in a Standard Oil Company launch.

**AMERICANS FIRED ON**  
Three Americans, Padgett, Stensel and Lupton, were fired on while attempting to land at Amoy. It is reported that a battalion of troops is moving on Chang Chow, about fifty miles here, and will meet a detachment coming south in an effort to capture that city. Japanese gunboats have been expected at the harbor since 7 p.m. yesterday, but had not arrived today.

## PAYLESS PAY DAY FOR SAKE WORKERS

LEGAL TANGLE OVER ECONOMY BUDGET HOLDS UP JULY SALARIES

(BY A. P. DAY WIRE) SACRAMENTO, July 31.—Today was payless pay day at the Capitol, so far as State Controller Riley issuing warrants to meet the payroll of more than twenty-three boards, bureaus and commissions of the State government was concerned. These payrolls, amounting to approximately \$100,000 for July, were held up by Riley due to the legal tangle over the economy budget, that the Supreme Court has been asked to unravel. However, a majority of the boards affected were able to pay their employees through temporary loans obtained from banks in Sacramento and San Francisco. Riley issued warrants and they were paid by State Treasurer Charles G. Johnson, as is usual in the case of statutory officers and all employees in offices not in the budget controversy.

## PARTY OF DEPORTEES STARTING HOME SOON

(BY A. P. NIGHT WIRE) WASHINGTON, July 31.—A party of deportees will start from Seattle the 11th inst., beginning with fifteen and increasing to about seventy-five by the time it reaches New York, the immigration bureau announcing today that deportees would be picked up at Portland, Spokane, Fergus Falls, Mont. St. Paul, Chicago, Cleveland, Buffalo and Rochester. About fifteen nationalities will be represented in the group which will include a number of aliens who have become insane during five years after landing in this country and some who have served prison sentences.

## FAIR BOARD CHOOSES HORSE-RACE STARTER

(EXCLUSIVE DISPATCH) POMONA, July 31.—Purchasing poultry, rabbit and cavy exhibition coops, appointing the starter for horse races, naming Trevor A. Moore as head of the night horse show, hiring the judges for the poultry department and arranging the junior department premium list, were things accomplished at the meeting of the Los Angeles County Fair board of directors today in the fair offices. William C. Tallant of Edmonds, Okla., was chosen as head judge of the poultry department. A. G. Goodacre of Compton and Fritz Thott will be his assistants. Ed Smith, starter of the horse races last year, was reappointed to serve this year.

## ASSERTS FAITH LOST IN MONROE DOCTRINE

(BY A. P. NIGHT WIRE) SOUTHAMPTON (Mass.) July 31.—South American countries no longer look on the Monroe Doctrine as a source of protection to them, Leo S. Rowe, director-general of the Pan-American Union, said in an address which opened the "Conference on International Problems of the American Continent" at the Institute of Politics today.

## FRANCE, ITALY SIGN AGREEMENT ON SILK

(BY CABLE AND ASSOCIATED PRESS) ROME, July 31.—The signing of the Franco-Italian agreement on silk is considered here to be one of the most important events in the relations between the two countries as it puts an end to the tariff war on silk which lasted more than thirty-five years. The treaty establishes the reciprocal policy of most favored nation treatment.

## HEARST IN ROW WITH MEXICANS

Formally Protests Against Seizure by Agrarians of Vast Barbicora Ranch

(EXCLUSIVE DISPATCH) (Copyright 1923 by the Chicago Tribune.) MEXICO CITY, July 31.—William Randolph Hearst, the American publisher and the largest landholder of Mexico, has filed a formal protest with the State Department in Washington against the threatened seizure of his Barbicora ranch of 333,000 acres by the Agrarian Commission in the State of Chihuahua. William Ferris, the manager of the ranch, who has been spending a month in Mexico City carrying on negotiations with the Federal government, has suddenly departed for the ranch. The seizure which has been threatened for months seems inevitable and imminent despite the efforts of the large Hearst organization in Mexico City.

While in the Mexican capital two months ago Mr. Hearst appealed to the American authorities to avert new and heavy taxation to be levied against his 1,000,000-acre ranch extending through the three states of Vera Cruz, Oaxaca and Chiapas. The taxation was levied only on the portion within Vera Cruz. It is reported that Gov. Enriquez of Chihuahua has been having considerable correspondence with the Federal authorities regarding his announced plans to seize the Barbicora ranch. The Governor declined to accede to the Federal viewpoint and hope seems to have been abandoned by the Hearst headquarters. Heretofore Mr. Hearst has avoided a formal protest because he hoped to negotiate with the Mexican government which might imperil other vast property. The present action places his claims officially in the field of seized properties before the recognition conference.

## COMMISSION DENIES HARBOR WAGE CLAIM

STATE CIVIL SERVICE BOARD CALLS EMPLOYMENT OF MEN IRREGULAR

(BY A. P. NIGHT WIRE) SACRAMENTO, July 31.—On the ground that a number of exempt positions were created and employees added to the payroll in violation of the rules and regulations of the Civil Service Commission, David R. Reese, chairman and executive officer of that body, announced here today that the commission had disapproved the wage claims of the employees as presented by the State Board of Harbor Commissioners in its current payroll. The violation of the regulations, according to Reese, was brought about by the harbor board through the appointment some time ago of a number of employees with civil service standing. He also stated that the board by its action not only exceeded its powers but virtually usurped powers conferred upon the Civil Service Commission by law. In the action involved, Reese said the practice of the board had been to engage employees without even as much as a consultation with the Civil Service Commission and later to notify the commission that the positions by a decision of the board had been placed on the exempt list.

## RICHMOND FLOODED; ONE MAN IS MISSING

GREAT DAMAGE CAUSED BY ELECTRICAL STORM AND CLOUDBURST

(BY A. P. NIGHT WIRE) RICHMOND (Va.) July 31.—Extensive damage was caused by a cloudburst and electrical storm here last night during which the Weather Bureau reported 7.36 inches of rain. Scores of persons were rendered homeless, stores, residences and manufacturing plants in the low-lying sections were flooded and much damage was done to buildings by the water which reached a depth of several feet in front of the Union Station. At other points fifteen feet were recorded, according to fire department officials, who rescued scores of persons. One man is missing and estimates of the damage range from \$250,000 to \$500,000.

## FOREIGN COMPETITION SEEN IN WHEAT TRADE

RAIL HEADS EXPLAIN WHY THEY REFUSED TO CUT FREIGHT RATE

(BY A. P. DAY WIRE) OMAHA, July 31.—Refusal of twenty western railroad executives at Chicago yesterday to grant a request by an Omaha business men's committee for a 25 per cent emergency freight rate reduction on export wheat and flour was based partly on contention that wheat growing in foreign countries would meet any resulting American competition, it was today announced at the Omaha Chamber of Commerce. A communication from J. E. Gorman, president of the Chicago, Rock Island and Pacific Railroad Company, said to have been to this effect was received by the committee but its text was not made public. John Kennedy, committee chairman, desires to send a reply before its detailed contents are announced.

**SALMON EXPORTS HEAVY**  
(EXCLUSIVE DISPATCH) PORTLAND (Or.) July 31.—More than \$200,000 of canned Columbia River salmon has been exported from Astoria since the first of this year. Most of last year's pack had been moved to market, before this season's catch began. Exports are mostly to Atlantic Coast and European markets.

# Harvest Begins

## Early Grapes Quick Profits!

The Famous "Trophy Brand" Juice Grapes from the Sierra Vista Vineyards have long enjoyed the distinction of being the first juice grapes of the season to be shipped out of California.

THIS YEAR IS NO EXCEPTION—Huge clusters are now hanging on the vines, rapidly ripening in the sun. The packing houses are alive with activity—thousands of lugs are daily being assembled—and during the first week in August actual harvesting will begin.

### How to Share in This First Shipment

In order for you to share in this first shipment you must act at once. Do not delay—as the beginning of the harvest season is less than two weeks away. Since announcing the sale of these vineyards less than three weeks ago, over \$100,000 in sales have been consummated to people who have visited this property, and have seen for themselves the profits of their investment actually hanging on the vines. IT IS NOT TOO LATE FOR YOU TO SEE FOR YOURSELF.

### You Get Half of This Year's Crop

One-half of the net returns of this year's crop is YOURS, if you buy in Sierra Vista Vineyards—NOW.

There will be an average yield of SIX TONS TO THE ACRE this year. The sugar content of these grapes runs from 21% to 30%, thus assuring delivery in good condition in Eastern markets, where last year Terusa Grapes, the earliest grapes harvested in this Vineyard, brought \$121.60 per ton. Indications point to an even higher price for this year's crop.

Your share of the returns from this crop will be in your hands from sixty to ninety days from date of shipment—and ALL FUTURE CROPS ARE YOURS. Definite arrangement can be made for the cultural care of the property during the next year, if desired.

## Full Bearing Irrigated Vineyards \$600 per Acre

### TERMS

30% ..... Cash  
10% ..... Jan. 1, 1924  
Balance in three equal annual payments, with interest at 6 per cent.

### LOCATION

Situated in the San Joaquin Valley, on the State Highway, 15 miles south of Merced—the Gateway to the Yosemite—and on the main line of the Southern Pacific Railroad.

Sierra Vista Vineyards control the riparian water rights of the stream which bisects the property. One share of water stock is given with each acre purchased.

With beautiful trees, fine roads, convenient schools, churches and banks, Sierra Vista Vineyards offer all that go to make up a real home community.

### KEARNS WOULD PERMIT JACK DEMPSEY TO DEFEND TITLE AT TIJUANA

#### COFFROTH WILL PICK OPPONENT

Jim Hopes to Land Gibbons or Wills for Bout

Luis Firpo Battle in Border City Ring Impossible

Brown Panther Fails to Stir Commission to Action

By a "Times" Staff Correspondent  
SAN DIEGO, July 31.—Although Jim W. Coffroth has received word from Jack Kearns that the Dempsey-Firpo fight for the world's championship is scheduled for New York and therefore cannot be considered for Tijuana, the boxer club head today said he was hopeful of landing the champion for a fight with either Harry Wills or a return match with Tommy Gibbons.

"We can't fight Firpo at Tijuana for the reason we are going to fight him in New York. But we will take on anyone else you may choose," was the substance of a telegram received by Coffroth today from Kearns.

#### COFFROTH CONFIDENT

Coffroth said there was no certainty that the Dempsey-Firpo fight would be held in New York, owing to the attitude of the boxing commission of that state. He said he looked for some interesting developments in a day or so. Both Dempsey and Kearns are close personal friends of Coffroth and the latter is confident he can bring the champion to Tijuana for an important bout later this year.

NEW YORK, July 31.—The expected fight over the proposed Jack Dempsey and Luis Firpo championship battle failed to materialize today. At the office of the New York State Athletic Commission, where lots of excitement was thought to be in progress, nothing happened.

It was expected there would have to be a big show-down over the fact that Wills was being ignored by Dempsey and the fight promoters. The commission, through one of its members, explained that as no promoter had applied here last at the office, it was a miserable showing. I'm not opposed to a Wills match, but I think Firpo is preferable. If there is any demand for a match between Wills and the winner of the Dempsey-Firpo match I will be very glad to put it on."

#### TEX WROUGHT UP

Tex Rickard is all wrought up over any idea that there is any objection to a match between Dempsey and Firpo. The big promoter says that he made the match good and fast and cannot see why there should be any question about holding the bout.

"I think that Firpo is a much better opponent for Dempsey than Wills," said Tex today. "You will remember that when Wills fought here last at the garden it was a miserable showing. I'm not opposed to a Wills match, but I think Firpo is preferable. If there is any demand for a match between Wills and the winner of the Dempsey-Firpo match I will be very glad to put it on."

### PHILCO BATTERIES

EFFECTIVE TODAY  
New Low Prices on  
PHILCO BATTERIES

Think of it!  
**\$1.34**—a month under the Philco Guarantee is all it costs the owner of a light car for battery service.

Batteries for Larger Cars at Proportionately Low Prices

These prices are not for especially built batteries made to sell on price, but for GENUINE FULL-POWERED PHILCO STANDARD GUARANTEE BATTERIES. Efficient manufacture, economical distribution, tremendous increase in sales have made these new low prices possible for the highest power, longest life, lowest cost per month of service battery ever built.

Come in today for efficient battery service. When the time comes for a new battery buy a Philco—It costs less per month of service.

### BERKELEY RACKETER TRIUMPHS

Miss Wills and Molla Win in Second Round; Davies Eliminated

(EXCLUSIVE DISPATCH)  
SEABRIGHT (N. J.), July 31.—Miss Wills of Berkeley, Cal., easily defeated Mrs. H. F. Hancell of Seabright here today in the second round of the invitational tennis tournament. Miss Wills achieved her victory in straight sets, winning 6-3, 6-0. Mrs. Molla Sturges of Malibu, national champion, defeated Mrs. Edith Sigourney of Boston, 6-3, 6-2, in a second-round match.

James Davies, Leland Stanford star, defeated W. A. Ecklund, Hawaiian Davis Cup player, in the first round, 6-4, 7-5, and later lost his second-round match to R. L. C. Norton, South African, 6-1, 6-1. Howard Kinsey of San Francisco was successful in both the first and second rounds, defeating Bowie Dieckhoff, Hawaiian player, in the initial match, 7-5, 6-3, and winning the second from B. N. Dell of Boston, 6-2, 6-3.

William M. Johnson, recent winner of the world's championship at Wimbledon, defeated Leonard Beckman of Philadelphia, former Princeton star, in the third round of play, 6-4, 6-4. R. Norris Williams scored a win over Carl Fischer, 6-7, 6-0, and Watson M. Washburn defeated Dr. George King of New York, 6-4, 6-4.

R. C. Norton, who triumphed over Davies in the second round, defeated Stanley Beckman of Philadelphia, 6-3, 6-3, in a third-round match. Francis T. Hunter of New York, and smaller with Johnston at Wimbledon, triumphed over H. G. Kellner of New York, 7-5, 6-4.

Miss Eleanor Goss of New York defeated Miss Martha Rayard, Short Hills, N. J., 6-3, 6-4, in the second round of the women's singles. Mrs. Lewis C. Morris, New York, defeated Miss Alice Francis, Spring Lake, N. J., 6-4, 6-4, 7-5, in the second round.

#### BOWLING PLAY IS RESUMED TONIGHT

Play in the bowling doubles championship for the B. H. Dye Company gold medals will be resumed tonight at the Angelus Academy alleys. The teams will take the alleys at 8 o'clock and at 9 o'clock.

The schedule follows:  
8:00 p. m. Phelps and Mitchell vs. Hershey and Greag; Lustig and Groshong vs. J. Bowen and Cy Taylor; Meador and Topping vs. McKinley and McKennis.  
9:00 p. m. Scott and Warner vs. Faustick and P. Bowen; Blume and Bennett vs. Shay and Turner; McCubbin and Pelletier vs. Kruger and Renaud.

### TUNNEY WINS OVER O'DOWD

Champ Beats Challenger in Awkward Ring Affair

Both Boxers Are Given Royal Raspberry by Crowd

Pancho Villa Whips Williams in Decisive Manner

(EXCLUSIVE DISPATCH)  
QUEENSBORO STADIUM, LONG ISLAND, CITY (N. Y.) July 31.—Gene Tunney American lightweight champion, got the decision over Dan O'Dowd of Boston, in a twelve-round bout at the Queensboro A.C. tonight. It was an awkward sort of an affair all through, and the crowd raspberryed the two boxers all the way. It was Tunney's first appearance in a local ring since he won the title from Harry Greb in Madison Square Garden last winter.

Tunney's showing was disappointing to his boosters, who had hoped for a knockout.

The champion,uffed O'Dowd around as he pleased, but didn't have enough sting to his punches to bring the Bostonian to the floor.

The champion,uffed O'Dowd around as he pleased, but didn't have enough sting to his punches to bring the Bostonian to the floor.

A crowd of more than 7000 sat in during the bout. Tunney weighed 174 pounds. O'Dowd, 175.

(BY A. P. NIGHT WIRE)  
PHILADELPHIA, July 31.—Pancho Villa, flyweight champion of the world, went out of his class tonight and in the opinion of newspaper men at the ringside, scored a decisive victory over Kid Williams, former bantamweight titleholder. Villa's weight was announced as 116 pounds and that of Williams at 114.

#### Gorman Whips Spec Ramies in Vernon Go

Joe Gorman of Portland earned a decision over Spec Ramies in the main event at Vernon last night. Ramies had a big reach on the visiting fighter, and Gorman was forced to resort to in-fighting to take the bout. It was his persistent rushes that swung the victory his way. The first round was Gorman's, but Ramies came back in the second and in a rather tame round was given a shade. Spec also took the third round with lefts to the face and right uppercuts. In the final round Gorman had Picot's quarters shook Ramies with rights to the face, and won the round by a big margin. The big shade by which he took the fourth round easily gave Gorman the decision.

Red Cole defeated Joe Layman in the semi-wind-up. In the second round Cole knocked Layman to the mat with a right to the jaw, but the latter was in the ring again. Cole easily took the first three rounds, and although Layman was given a shade in the final, his margin was by no means sufficient to earn a verdict.

Terry Adams was given a very close decision over Jack Griffin in the special event. The boys are both very clever and their bout was more of a boxing exhibition than the type of fight the local fans like. In the bout just prior to the special event Frankie Novis whipped Joe Picot to a standstill in one of the best slugging matches ever seen at Vernon. In the fourth round Novis had Picot out on his feet, and all that saved the latter from a knockout was the final bell. The crowd was so pleased with the go, they showered the ring with silver.

Young Terry won a close decision over Max McFarland. Eddie Wilkins defeated Frankie Herman, while Joe Fernandez was given a shade over Eddie Morton in the opener.

#### WILLIAMS AND HEN BERRY GO HUNTING

Harry A. Williams, member of the Times sporting staff, and Hen Berry, former owner of the Los Angeles baseball club, left this city last night for Ensenada, Mexico, where they will enjoy several days of big game hunting. The country around Ensenada is famed for its excellent hunting grounds, and the pair should experience a great trip. They will return to this city late in the week.

#### FIRPO'S RISE METEORIC

Famous "Bull of Pampas" Climbs Fistic Ladder Rapidly; Begins Life in Drug Store

BY SID SUTHERLAND  
(EXCLUSIVE DISPATCH)  
OMAHA, July 31.—It is a far cry from the perils and mortar of a Buenos Aires drug store to the referee's instructions in a battle for the heavyweight championship of the world; but it is the ever-ascending path trod by Luis Angel Firpo, Argentina's entry in international pugilism.

Like Caesar's Gaul this article about the Latin-American who aspires to Jack Dempsey's crown will be divided into three parts, and when you have read them all you probably will be able to decide whether Senor (note, put tide over letter n in Senor) Firpo is a rich vein of producing gold, or is a case of plain, ordinary, everyday bull.

Who is Luis Angel Firpo? Where does he hale from? What are his antecedents? Is he a genuine star of the first magnitude rising above the horizon of pugilistic mediocrity, or is he a meteor, sagaciously handled by those wily individuals who operate sub rosa in American prize ring affairs? Let the contest be the question direct and receive the answers without misconception, involuntary or fizzle.

IS A PUZZLE  
Firpo has been a puzzle to the American public that follows boxing, because he has been made up exactly what his press agents wanted the public to believe. He

### California Country Club Invitational Tourney Opens

#### TIJUANA OPENS THANKSGIVING

"Your liberality in offering \$40,000 added money for the Coffroth Handicap for the coming season should result in the greatest assembly of high-class thoroughbred winter racing has ever had and undoubtedly Tijuana will play to heavy attendance."

This telegram received yesterday by President James Wood Coffroth of the Tijuana Jockey Club from William Porter, business agent of the extensive racing stable operated by Commander J. K. L. Ross, is one of several of a congratulatory nature the impresario of western winter racing has received.

President Coffroth announced last night that the sport will be opened Thanksgiving Day for a stretch of 100 or more days of racing. Purse to be distributed will total \$750,000, while there will be \$74,000 in added money for the six stakes. The latter will be featured by the Coffroth Handicap and it will be raced March 30. The added money for the Coffroth, now \$10,000, is increased by \$10,000 over that added last season.

#### HOSPITAL FUND BOUTS TONIGHT

Seven High-Class Ring Tilts on Benefit Card

Society Folk and Film Stars to Attend Affair

Stage Fistic Show at Legion Hollywood Arena

The much-talked-of benefit boxing show arranged by the Cripple Children's Guild will be staged tonight at the Hollywood American Legion Stadium. The sport will go on at 8:15. Los Angeles society circles have been anxiously awaiting the affair for weeks, and all of the smart set are sure to be on hand to witness the bouts. A big quota of film stars, all of the cinema celebrities in fact, are behind the performance and will be out in full force. The judges, and the referee, are to be attired in full dress. This will mark the first time the boys have had on the "tous and fluff" regalia since the famous society bouts held at the Alexandria Hotel several years ago.

Incidentally, as far as class is concerned, the affair promises to easily rival New York's famous milk fund show, in which Willard and Firpo appeared and earned the right to meet in their recent Jersey battle.

As in the Gotham show, all of the proceeds will go to charity, in this instance to the local hospital for crippled children. Frank Crowley has lined up an excellent program of seven bouts. Frankie Farren will meet Dick Hoppe in the main event, and the pair should furnish a scrap that will radiate action all the way. Both the boys are high in the lightweight ranks, and have given a good account of themselves in recent bouts.

McCann meets Walter Rooney in the semi-wind-up. Kid Koster was to have boxed in this bout, owing to a sudden illness will be unable to appear. The boys lined up, however, are both main-eventers and are sure to put up a good scrap. "Wild Cat" Willie O'Brien will throw the gloves with Larry Murphy in the special exhibition, with Alex McDonald, both O'Brien and Murphy are honest-to-gosh boxers, and their fight tonight will easily rival both the main event and the semi-wind-up.

As an added attraction Jack Sharkey of New York, who is one of the greatest fighters in the country, will box a three-round exhibition with Alex McDonald. Frank Crowley announced last night.

#### PALO ALTO DRAWS DIVING CLASSIC

(BY A. P. NIGHT WIRE)  
PALO ALTO, July 31.—The National High Diving Championships are to be held Aug. 24, at Bearville Lake near here. It was announced today by Ernest Branstetter, swimming coach of Stanford University and one of directors of the meet.

Other entries will be Haig Priests, who placed third in the Olympic games of 1920, and Tom McKee, New York City Champion.

#### DAUGHERTY THROUGH AS FRANKLIN COACH

Francis Daugherty, who for the past few years has been in complete charge of athletic activities at Franklin High School, has just tendered his resignation. Daugherty was very successful at Franklin, coping the city baseball title the first year the Kliefers entered the league. He captured the football title last year.

Daugherty has accepted a position as assistant supervisor of corrective physical education in the city schools.

Handsome trophies will go to the winners and runners-up in all fights, and the visiting fighters will be made to feel at home in every way by the members of the California club.

#### OXY MEETS ENGINEERS IN STADIUM

Armistice Day Football Classic Will Be Staged in New Pasadena Bowl

Occidental College and Caltech will play the feature football game on Armistice Day in the Tournament of Roses Stadium at Pasadena, under the auspices of the American Legion, it was announced yesterday.

In addition, Head Coach Joseph Pipal of Occidental announced the signing of Elmer Rasmussen, former University of Illinois star, as assistant football coach for the coming season.

Rasmussen, who studied at U.C. a couple of years ago, and last year was with the Michigan Aggies, is one of the best line coaches in the country, having been regarded as one of the greatest coaches ever produced in the Middle West during his college days. Tuffy Conn, one of the fastest backs ever developed in the south, will assist Pipal with the backfield this season.

An advisory coaching staff is also being formed, and an announcement will be forthcoming shortly regarding the personnel.

Occidental is expected to have a very exceptional year in football, as the team, which was coming along nicely at the end of last season, lost only one man and picks up a bunch of talent from the championship freshman team. Caltech was one of the big surprises of the grid season last year, and is expected to give the Tigers a terrific run.

Occidental is to play Stanford in the Exposition Stadium October 20, this being the only appearance of the Stanford eleven in the south.

BARRETT COPE TITLE

#### GOLFERS WILL TEE OFF TODAY

To Qualify for Invitational Tournament

California Country Club is Host in Affair

Long Entry List Promises Tough Competition

Southern California golfers will have their first taste of midsummer competition on a large scale this week when the invitational tournament of the California Country Club is staged, qualifying rounds at which are scheduled for today. Heretofore the larger tournaments have been held when the sun was less in evidence and the turf softer, but the fact that well over 100 competitors have signed up for the affair at Calver Club indicates that it takes more than mere heat to discourage the species of golf enthusiast inhabiting Southern California.

Aspiring trophy winners will tee off all day, beginning early this morning, and continuing until dark. Although enough players have entered to insure strong competition in all flights, even more are expected to add their names to the long entry list today. First round matches will be played tomorrow, with the final scheduled for Saturday afternoon.

COURSE SPORE  
The qualifying round will be over eighteen holes, and from the high caliber of the entry list it will not be surprising if the course record is broken. Recent alterations on the course have increased the number of traps and bunkers, making the California links much more of a championship course than formerly.

Handsome trophies will go to the winners and runners-up in all flights, and the visiting golfers will be made to feel at home in every way by the members of the California club.

# Anzac and Nipponese Davis Cup Teams Travel Long Way to Meet

## CHICAGO SCENE OF ZONE FINAL

Matches Are Scheduled for August 10, 11 and 12

Victorious Team Will Meet European Winners

Australians Travel 11,000 Miles in Cup Quest

CHICAGO, July 31.—Two teams, members of which have traveled respectively 11,000 miles to put each other out of competition, will clash in the American zone final of the 1923 Davis Cup competition on the grass courts of the Southside Tennis Club next week. The contending teams are those of Australia and Japan. They will compete in four singles and one doubles encounter on the afternoon of Friday, Saturday and Sunday, August 10, 11 and 12.

**SAILED TEN WEEKS AGO**  
The Australians sailed ten weeks ago from Melbourne, and their trip to San Francisco saw them covering more than 7000 miles. From California to New Jersey, the Antipodes squad under Capt. James O. Anderson covered 3100 more miles to take the court against the Hawaiian Davis Cup team at East Orange, N. J. The "Aussies" ended their match against the Hawaiians yesterday, and tomorrow will start another 1000-mile trip, doubling back westward to Chicago. If defeated here, they can start home, but victory will bring further hop-skip activities back to the Atlantic States.

**JAPS TRAVEL FAR**  
Counting the distance of 4500 miles from Yokohama to Vancouver, the Japanese team has traveled further cross-country jumps of 3100 miles to Montreal and 1500 miles to Chicago, the mileage of the Nipponese experts falls little short of the vast undertaking by the Australians.

Receipts of the matches at Chi-

## PRINCE JAMES TURF VICTOR

(BY A. P. NIGHT WIRE)

SARATOGA SPRINGS (N. Y.) July 31.—Three stakes were run at Saratoga Springs today before a crowd of 15,000 racing enthusiasts gathered to inaugurate the annual meeting at this track. Rain lasting several days had left the track heavy and as a result only five starters appeared in the Saratoga handicap. Of these, C. H. Thieriot's Prince James was made a lukewarm favorite. Firebrand, the Kentucky representative, ran in the lead for half a mile with Dunlin second. At this point Prince James came on, and passed them. He was not headed thereafter, and won by four lengths.

The flash stakes for two-year-olds brought out a field of nine, Parson being an added starter. Fluvanna was made a strong choice. Lord Baltimore had no trouble in taking the lead from Fluvanna, and he galloped in front the rest of the way.

## FALL SHOOT SEASON WILL OPEN SUNDAY

The fall shooting season of the Vernon Gun Club will be ushered in next Sunday with a registered ham and bacon shoot being held. It was announced yesterday by Secretary Bill Pugh.

The shoot will call for 100 targets at 14 yards with plenty of hams and bacon up as trophies. Scores will be registered with the American Trapshooting Association.

Following the registered affair, a fifty target distance handicap will be held, followed by a double bird shoot at 25 pairs of targets. Take-home trophies will be up in the last two events.

## MUR HIKERS BACK FROM YELLOWSTONE

Mrs. E. R. Gillett, head of the Mur Hikers from R. H. Dyer Los Cabin, announces that a trip over next Saturday and Sunday will be taken by the hikers to Balboa Beach.

The Dyer hikers are just back from a ten-day trip through Yellowstone Park. The trip proved the most extensive and pleasant

## HACIENDA TOURNEY IS FINISHED

Many New Golf Stars Are Uncovered During Play at Whittier Club

WHITTIER, July 31.—The seven-flight golf tournament just completed at the Hacienda Country Club brought to light a number of players that are giving exceptional promise, and the tournament was one of the most successful and satisfactory yet staged at the new club grounds.

In the first flight E. R. Canterbury defeated V. M. Reid, 5-4. Mr. Canterbury will receive an order for \$10 worth of goods from the Hacienda Golf Shop, donated by the First National Bank of Whittier.

Abstracted R. C. McGilli, 4-2, and received a \$10 order given by the Whittier News. H. Hilop defeated Earl Myers, 3-1, and received a \$10 spotlight donated by J. W. Cox Motor Sales Company. H. L. Perry defeated G. W. Finch, 4-3, and received a \$10 trade order from Bori Leslie of the Quaker City Garage.

The fifth flight was won by A. C. Johnson, who defeated O. C. Albertson, 4-2, and received a pair of golf shoes donated by B. A. Edgington. K. C. Hayes defeated William Davidson, 3-2, and will receive a year's golf insurance from C. A. Ross. The seventh and final flight was won by Dr. A. T. Charleston, who defeated H. Benjamin, 3-4, and receives an inner tube given by the Whittier Implement Company.

**MODESTO LAWYER KILLED**  
(BY A. P. NIGHT WIRE)  
OAKLAND, July 31.—James Crittenden, an attorney of Modesto, was killed today at Santa Rita when an automobile in which he was riding, collided with a motor truck.

## MUGGSY'S FAITH STRONG

McGraw Believes Giants Will Pull Through All Right; Return of Bancroft Big Asset

BY JOHN J. MCGRAW  
Manager, World's Champion Giants  
(EXCLUSIVE DISPATCH)

PITTSBURG, July 31.—As the major league teams all have made the half-way turn and the race narrows into the stretch interest seems to be centered on the Giants and the possibility of the Reds or the Pirates knocking us out of the lead.

In the American League the Yanks are so far out in front that their third pennant seems almost a foregone conclusion. By winning half of their games from now they could win even if Cleveland took on an unexpected spurt and won more than two-thirds of their games. That I do not consider likely. When the Tigers and the Athletics failed to develop a punch the race was practically over.

While it may have added a few gray hairs to the pretty good sized crop I already have I am not nearly so much alarmed over the situation facing the New York club as are many of our supporters. I know that we have a fight on our hands and my players know it. Their realization of the danger, in a way, has been a good thing. Just when the Reds threatened to close in on us, we showed Brooklyn the Giants lightened up and came through. They did that two years ago and again last year. It is that spirit that gives me confidence.

**PITCHING WORRIED**  
The pitching staff has been very wobbly at times, but when it came to a pinch the driving force of the club showed itself even without the steady, reliable pitching. If you will recall the feelings of the fans last September you will notice that exactly the same things are being said now as were so freely discussed then.

The Giants can not beat the Yanks with their pitching staff. Nearly every expert in the country said. The only statement I had to make then was that my pitchers had managed to deliver everything I called on them in the league. I figured that if they would show the same spirit in the world's series that we would have a chance. It turned out that did that very thing, and we won.

**FAITH IN THEM**  
My faith in them is just as strong today. We have no more easy games ahead of us. We must beat the fighting at Cincinnati and what we expect to do. With Bancroft back in the line-up the Giants feel that they can do it. His experience and field leadership are a big asset.

The fighting at Cincinnati and Pittsburgh will be something worth seeing, but I have not lost faith in my club, not by any means. They have a terrific batting punch, as baseball people know. When pushed to the wall they always have used it.

A look at the schedule makes it evident that the contenders in the National League—Pittsburgh, Brooklyn and Cincinnati—have most of their games against the weak clubs while most of ours are against the strong clubs. That is true, in a way. We have less than ten games against the Braves and Pirates. The Reds and the Pirates have more than twenty. I do not lay as much stress on that situation as others do.

**IN LONG RUN**  
In the long run each club must play the same number of games against all of the other clubs. It does not follow that the Reds, for instance, will have a walk-away either against the weak clubs or against us. We are counting on beating the contenders, team against team. In other words if we play championship baseball, one game at a time, the affairs of the other clubs will take care of themselves. If we lose a majority of games it makes no difference who we lose them to. The same is true in the matter of winning.

This is the game to win. I tell my players, "the one we are playing. Never mind about the future." And that's the way we will fight it out.

I am not concerned over the fact that we have to play most of the tough games away from home. We have won pennants that way on several occasions. If we had a young, inexperienced club it might be different. The Giants, though, are a thoroughly seasoned ball club with a lot of class. They have been in hard fights and are quite able to stand the gaff. They have fought through two regular seasons and two world's series. Hostile crowds will not bother them. It is against the gaff that they fight best.

**NO TRADING**  
As we enter the West in this critical stage of the race I am constantly reminded in the press of the new rule which has prevented trading among big league clubs after June 15. Many seem to think that very rule will prevent New York from winning the pennant.

Regardless of what effect that rule may have on my club—and, as a matter of fact, I think it has none—I am convinced that such a rule will not work out successfully. To my mind it has had the opposite effect to this intent.

The idea of this experiment was that such a rule would prevent the strong clubs from signing new players and bracing up at the last minute. It has worked with reverse English. Instead of hurting the leading clubs it has merely served to make the weak clubs weaker. I venture to say right now that such clubs as the Philadelphia Athletics and the St. Louis Cardinals are in a worse position than they were before the rule was adopted.

**AUTO CROOKS ARE AS BUSY AS EVER**  
Thirteen machines were stolen from the streets of Los Angeles yesterday. The stolen cars and their numbers are as follows:

**JIMMY JONES NEW WORLD WELTER CHAMP**

NEW YORK, July 31.—Jimmy Jones, of Youngstown, O., credited with a victory over Dave Shade, of San Francisco, in a match July 24, was declared world welterweight champion in this State by the New York State Athletic Commission today.

Shade had been given recognition as the champion by the Commission after the suspension of Mickey Walker, of Elizabeth, N. J., who won the title from Jack Britton.

## Salt Lake MYERS

"Uncle Bim" Shee

Salt Lake resents on a somewhat shrewd series. Elmer (Uncle Bim) picked John May as the surest would man, whom Fred agreed would win the race, which was interrupted by appendicitis. Fredricka jumped home, and was not in need of aid. Slight drinks with Volstead, grounds damp and rife slippage. The James Toms, who strikes, confronted a problem in chemistry would stamp any. The plate was dirty to be dusted off in air. His first impulse it was only after a cup of tea that he didn't seem quite so was up against cleaning with no ap. REVEALED. Due to the heat, Oscar Vitt, a rival, the Salt Lake club Manager Duffy.

## A SAVAGE TIRE "AD"—WITH COMMENTS

Drawing what is known as "the deadly parallel" is a favorite means among advertising writers of emphasizing the advantages of one method or proposition over another. Two diametrically opposed thoughts are placed before the reader and the comparison drawn between these two obviously results to the benefit of the particular proposition presented. Where the comparison is fairly

## No. 11 OF A SERIES

drawn this is a most satisfactory way of forming an opinion and means of coming to a conclusion. The results on one side are weighed against the results on the other and it is a case of "may the best man win." We have used that method in the "ad" below and we are glad to be fair in our comparison. The decision rests with you. Royal B. Lee, Advertising Manager.

**ARE YOU PAYING FOR ANXIETY AND WASTE**

**OR COMFORT DEPENDABILITY AND ECONOMY?**

**WHEN YOU BUY TIRES**

There's more than the price you pay in actual cash to be considered. There's the increased possibility of hours of wasted time, annoying delays, and even hard work to remember. Unfortunate occurrences may happen to any tire, it is true—but the fact remains that some tires are much more dependable than others—and the best tire cannot be made cheaply.

You're inviting anxiety, uncertainty and waste—and paying out money to get it—when you purchase unknown, cheap tires.

You're increasing the possibilities of added comfort, dependability and economy—and you're paying less per mile to get it—when you purchase high class tires of a responsible make.

Why pay for annoyance?

**For Satisfaction, Quality or Price Buy SAVAGE TIRES**

FROM NEARBY DEALERS

Our little Indian character is a versatile fellow. Here we have him painting a sign. The truth of the matter is, we wanted to show some signs of life and get a little action into your ad rather than a plain block of text, so we put a paint bucket and brush into his hands and he went to it. Not so bad, what?

Isn't this apropos? Almost everybody buys tires—and we think they ought to be interested in knowing what happens.

This is just another way of looking at the matter of costs. If your time and freedom from annoyance aren't worth the difference between the price of a cheap tire and a quality tire you are perfectly justified in "taking a chance" with a cheap tire, of course. That is your business. Our business is to make good tires and we'd like to convert you on the best-fits to be derived from them. That's all.

You're not apt to get all of these in a very cheap tire. Price? Yes. But the rest—well—maybe yes, maybe no. Mostly no. That's the difference. Why not try Savage Tires next time?

Of the tire dealers in your vicinity, those listed here are the best equipped to give you reliable information regarding Savage Tires. Come in sometime before you buy tires again and see the different types of tires we make, and compare them with the tires you're using now. Then you can decide for yourself.

# Parrish and Testa Will Represent South in State Bicycle Championships

## FRESNO TO BE SCENE OF MEET

Local Boys Scintillate in Exposition Races

Parrish Heralded as Coming Star Pedaler

Pair Should Finish Well Up in State Affair

As a result of the Southern California championship elimination races last Sunday at the Exposition stadium, Donald Parrish and Frank Testa have been selected to represent Los Angeles in the State Championships at Fresno August 4, in the senior events, and Sam Levy in the junior races.

Parrish is looked upon as one of the coming star pedalers. His age is only 14, barely within the senior class, and the recent races were his first appearance on the track in competition, against the most seasoned riders in the south. Testa is a former city champion, aged 19, and while the cards seemed to be against him in the trials, he may be expected to do his part for Los Angeles in the Fresno races.

By winning the "miss-and-out" race, Parrish brought his score up to second place for the trophy cup, against the entire field of thirty-two riders. This was the hardest race of the program. The last rider on each lap is called out until there are only three left, when the bell is sounded for the final lap. There can be no lagging in such a race, but each rider must plug his hardest from the start, no matter what the distance.

Manuel Rousa of Long Beach, who entered the meet as favorite, and Walter Filippa (a junior rider) tied for the trophy cup with 11 points each. The method of decid-

## THIEVES VISIT "CHICK" EVANS

(SOUTH BEND IND.) July 31.—Curious to know what a golf champion carries in his suit case, thieves operating at Lake Waukegan, Ind., stole the black bag belonging to Charles "Chick" Evans of Chicago. "Chick" says they found about \$200 worth of clothing, most of it some-what worn, and more than a hundred telegrams congratulating him on his victory at Cleveland last week. He believes the thieves will return everything when they look the assortment over.

ing who shall receive it has not yet been determined. Bicycle racing in the Southland has lagged for several years, but the trials just finished indicate a good contest against the more practiced contestants from the north.

## ROHWER'S HOME RUN DEFEATS SEAL CLUB

(BY A. F. MYST WIRE) SEATTLE (Wash.) July 31.—Ray Rohwer beat the San Francisco Seals with one swipe of his bat this afternoon, his homer in the eighth with Eldred on base, giving Seattle a 4-to-2 victory. Rohwer's hit cleared the right-field fence by many feet. The score:

SEATTLE	SEATTLE
Runs	4
Hits	10
Errors	1
Left on base	5
Stolen bases	1
Double plays	1
Strikes out	10
Batters fouled out	1
Umpire	W. J. McQuinn

Time—1:10. Attendance—1,000.

## BENEFIT FOR JACK MILLER

Billy Lane Takes Initiative in a Good Cause

Southern California After Class B League

Joe Patrick Wants to be Owner of Angels

Billy Lane, owner of the Salt Lake club, who put over the benefit ball game for the families of the Jackson miners lost in the Argonaut tragedy, has taken the initiative to stage a benefit for Jack Miller, who was forced by ill health to give up the management of the San Francisco club.

Miller, according to Lane, never got into the big money in his playing days and hasn't sufficient to carry him through his fight against tuberculosis. Lane's plan is to have the winner in the Coast League play an all-star team to be selected by the fans. Tickets will be sold in all eight cities of the circuit, and many of the fans who cannot even attend will buy tickets.

Plans to launch a class B league in Southern California, to be used as a farm for the Coasters, will be discussed at a meeting to be held at the Los Angeles Athletic Club on Saturday night. The proposition is to organize a four or six-city league for the development of young players, the circuit to include Long Beach, San Bernardino, Pasadena, San Diego and other cities. There are many angles to be considered, as placing clubs in Long Beach and Pasadena would tend to draw from the games in Los Angeles and would in a measure be an encroachment on the territorial rights of Los Angeles and Vernon.

Furthermore, Long Beach is growing so rapidly that it will eventually be large enough for a berth in the Coast League, and the Coasters may object to having it tied up in some other league. Also, the beach city may aspire to these greater things. San Diego may feel the same way about it.

Should Joe Patrick realize his ambitions the Los Angeles club will have a real majority owner. And that owner will be Joe Patrick, the present president of the club. Strained relations existing for some time between the Angels and Chicago Cubs is about to result in a break.

President Veeck of the Cubs thinks the Angels have given him the ragged end of a number of deals, and the Angel officials reciprocate this feeling with compound interest.

Veeck opines that he was stung on Nick Dumovich. In players and money Dumovich cost the Cubs approximately \$75,000. On the other hand, it is pointed out here that certain players promised by the Cubs in some of these deals have not been delivered yet. Also, it is maintained that President Veeck is blessed with good eyes and must have had them open when he bought Dumovich.

Anyway, the Chicago boss has reached that point where he wants to sell the 2000 Los Angeles shares which he owns. Patrick intends to buy these when they are placed on the market, unless Veeck should regain his good humor. Also he would like to buy the 6000 shares owned by the Cubs, which would give him a controlling interest in the Los Angeles club. Joe likes baseball and baseball likes Joe.

The act which precipitated the pending break was Veeck's refusal to pay more than \$7500 for Walter Golvin when it is claimed, a previous agreement had been made to the effect that Los Angeles would part with no player for less than \$15,000.

At one time or another nearly every Coast League team has been tied up in a major-league club, but the tendency now seems to be to dispose of these working agreements.

NEW GOLF MARK SET BY MRS. WENTWORTH

Mrs. Ite Wentworth of Los Angeles recently established a new record for women on the Catalina Island golf course. Her score for the nine holes was 22. The best previous score to the remarkable mark set by Mrs. Wentworth, was 24 for the nine holes.

## SPORT SHAPPEL

HARRY A. WILLIAMS.

Being too busy to pursue Elmer Henderson over the golf links I wrote him for a statement regarding football prospects at the University of Southern California. Elmer, being too busy to pursue me, wrote me right back, first dipping his quill into a pint of pestilence.

This was no surprise, as Mr. Henderson isn't accustomed to being bothered for something which he hasn't yet accomplished. He says: "The nearer we get to the football season the more pessimistic I get. The people of this community expect us to have the greatest team in the history this next year. They forget to realize the tremendous loss that we are having. We have lost our best player, lost Calland and Lindley in the line, Galloway, Baker, Leahy and Kincaid in the back field, and Boyce and Milton on the end, you realize it is practically impossible to fill some of these positions. He has been stated many times lately, Kincaid has been the most valuable back field man that I have ever seen, and it will be very hard to replace him with anyone near his ability. Everyone knows Baker, and knows that his loss will be very great. When you consider the varsity men that I have lost, and the loss of Boyce and Milton on the end is very greatly felt. Our season is going to be the last year was due to the great improvement of our ends. Leo Calland has been coaching our line for the last two years, although he played on the team, so you can realize it has been a wonderful asset to having a coach on the field at all times. It was his quick judgment in the New Year's game, and his quick shifting of the line that he was able to stop the most efficient play, so you can see how much we will miss him."

"We expect to let every team know after they meet us that they had had a hard time of it, and it is going to be a big problem to develop an efficient team as we had last year with the loss of such big backfields as Kincaid and Baker."

This statement is a large measure confirms my own worst fears, those which have prevailed since last fall when I saw the young men of the Great football team. Henderson has a stock of good men who came up from the freshmen last year, but where can any football coach find freshmen these days? The year on the varsity capable of replacing players of the caliber of Leo Calland, Howard Kincaid, Harold Galloway, Roy Baker, Eddy Leahy, Winchell Boyce, Johnny Milton and Lowell Lindley?

It is doubtful whether any Coast conference team ever has been hit harder in the matter of losses. Several of these men could have made any varsity in the country.

Here is what remains of last year's team after graduation—Hayden Fythian, end; Norman Anderson, Ralph Cummings, Wallace Newman, tackle; John Hawkins, guard; Inald Du Fay, guards; Chet Dolly, quarterback and captain; Otto Anderson, fullback; John Hiddle, Gordon Campbell, Tony Wayahan, halfbacks.

That is a good nucleus, now seasoned, and yet one need only contemplate certain features of the situation to realize the task confronting Henderson.

Note the wing situation. Last season he had three great flank men in Fythian, Boyce and Milton. Now he is reduced to the poverty of one experienced end. Fortifying that other outpost is no small undertaking, and it is a vital spot. Boyce or Baker or Gerphelke, posereens of last fall, are ends of unusual ability, but it takes a posereen sometime to develop into an end on which the opposition will shatter its attack.

One or more of these may arise to the situation. It has been done, although rarely, for the average player knows little football his first year on the varsity. In fact, most of them are just mastering the game their last year.

However, the fall before when Henderson lost Charley Dean and a raft of other good ones, we felt a good deal the same way about it, but he hobbled up with an even better eleven.

Doubtless, he will have the Trojans well up in the Coast conference clash, but I am inclined to think that his great team, the one with which he will make perhaps a successful bid for the championship, will come in 1924. By that time his second-year men of the necessary experience, and coming up from the freshmen in 1924 will be three youngsters—Larson, Lee and Thompson—three wonderful backfield men.

They played such football in the prep ranks that one feels they will be ready to step from freshman ranks into a steady job on the varsity. And it may be that some of Henderson's freshman crop of last season will be able to do the same thing next fall. But it strikes me that it will take more than three good ones to give him the team which he wants this year.

LYNCH-VILLA GO IS NEXT NEW YORK, July 31.—Joe Lynch, bantamweight champion, and Pancho Villa, flyweight titleholder, were signed today to meet in an eight-round no-decision fight at Philadelphia on August 27. Promoter Hoff offered Lynch \$10,000 to sign with Villa, and also a \$10,000 guarantee.

## FIRPO'S RISE METEORIC

(Continued from First Page)

where he had affected chemistry. In 1914, at 18 years of age, he got a job as a druggist's clerk in Buenos Aires. He seemed to have forgotten any ideas he may ever have entertained as to a career in athletics.

Two years went by and in 1916 an incident transpired which altered the course of his life, and may yet change the entire history of the boxing ring. A local promoter conceived the idea of importing sixteen American boxers for a national carnival. He relied on luck or pull to get a permit to conduct this show, and he failed. Consequently the sixteen Americans were stranded. Local importers throughout the country were able to stage a few fights, and one night Firpo dropped into a small club to watch the clandestine exhibition.

He says now that he was not particularly impressed. He evidently failed to realize the vast gulf separating a bar-room fight and a boxing contest. Satisfied that he could have whipped either, or both of the performers, he left the hall unpersuaded that the prize ring offered anything to him.

The Argentinians, however, took avidly to the game, and one night Firpo was induced to try his hand at the new sport. It is worthy of comment in his first article on the spectacular foreigner, to record that he advanced from his corner, arms flung wide in the fashion of longshoremen fighting rules, and stepped into a right uppercut that almost tore his head off. When he recovered he inquired of his friends what had happened, and they told him that one Rodriguez, heavyweight of parts, had simply fainted with his left and dealt the blow that immediately persuaded Luis Angel Firpo that there was a great deal to the boxing game that he did not know.

The future contender for the

## GIANTS ADD TO NATIONAL LEAD

(Continued from Third Page)

troit tounded Washington, 15 to 5, today, scoring six runs in the ninth inning on two hits off Zachary and five off Sedgwick who relieved him. Washington got five hits, Gharrity's triple off Mollway, scoring three men who had received passes in the second inning. The second game of the scheduled double-header was called in the second inning on account of rain. The score:

DETROIT	WASHINGTON
Runs	15
Hits	10
Errors	1
Left on base	5
Stolen bases	1
Double plays	1
Strikes out	10
Batters fouled out	1

The Vintage Ricoro — beautifully made of Porto Rico's finest tobacco

DOWN to the old Spanish factories in San Juan and Ponce come trucks and ox carts laden with vintage tobacco from the Ricoro plantations in the hills. And in the Ricoro factories, the world's most skillful cigar-makers work up this leaf into the finest cigars ever made in Porto Rico.

—Examine the workmanship of a Ricoro—see how beautifully it is shaped—feel how full and firm it is. Light it—note how easily it draws—how evenly it burns—how it retains its firmness down to the final inch. For here, indeed, Nature's generosity and man's skill have combined to give you the finest, most fragrant cigar you ever smoked—the new vintage Ricoro.

You would naturally expect to pay high prices for such a fine imported cigar, hand-made of vintage tobacco—the kind that grows perhaps once in a lifetime. But you don't have to, for Ricoro because it is imported duty free, you save the difference!

## The PENINSULA at Balboa

### Game Fishing

Approximately four miles off the coast of The Peninsula is found one of the noted fishing grounds of the Southern California coast. Here sportsmen from all California find Tuna, Albicore and Swordfish in abundance. To the owner of a cottage on the Peninsula, this sport is at his very door—presenting an opportunity that others travel miles to reach.

The Peninsula is a highly restricted Beach Park limited to residences—a community planned and executed to give to the man and his family an ideal environment for their seaside home.

The Peninsula offers:  
A Still Water Bay for boating and swimming.  
A Surf Beach for sea bathing.  
Unequaled yachting facilities.  
Concrete streets; ornamental lights.  
Gas; pure soft water; sewers.

Lots, fully restricted,  
\$2000 up.

To reach the Peninsula, enter to Balboa by way of Santa Ana, then on the Concrete road through the town of Balboa to the Peninsula.

## MANILA PLANS BOTTLE PLANTS

Millions of Containers Now  
Being Imported

Island Materials Are Found  
to be Suitable

Paper Manufacture is Also  
Being Considered

BY WALTER ROBB

(BY CABLE-EXCLUSIVE DISPATCH)  
MANILA, July 31.—The millions of bottles required annually in the Philippines for bottling may soon be made in Manila instead of being imported, as now from Japan. The Bureau of Science has conducted extensive experiments and reports that bottles of all kinds can be manufactured from local materials. About 15,000,000 bottles are imported yearly, a great many of them for beer, made here in large quantities from rice and sold in "Chinotindas," or little notions and liquor shops, all over the islands.

In making the Prohibition Enforcement Act Congress neglected to mention the Philippine Islands specifically, and according to the Jones Act of 1916, unless an act of Congress does mention the islands specifically, it does not apply here. Thirty Americans arriving in Manila are often pleasantly surprised to learn there is a spot under the American flag where enforcement officers are conspicuous by their absence.

Bottle labels from locally made paper are another prospective industry worked out experimentally by the Bureau of Science, which finds abundant raw material here for paper and has actually manufactured both cheap and fine grades of paper at its laboratories. Paper now comes into the Philippines from both Japan and the United States, the value of paper imports being several million dollars a year.

FEW NEGROES LEAVE TEXAS

(EXCLUSIVE DISPATCH)

DALLAS (Tex.) July 31.—The Dallas Express announces that a survey shows that less than one-half of 1 per cent of the Negro population of the State has gone North, where higher wages have been drawing so many Mexicans and other laborers in the last few months.

## NOTICIAS MUNDIALES DE ULTIMA HORA

En obsequio a nuestros numerosos amigos de habla española, y para beneficio de los lectores americanos del Times que estudian esa lengua, publicamos diariamente esta columna en castellano, con un extracto de las más importantes noticias de última hora.

Buena parte del futuro progreso de Los Angeles, que es la metrópolis de los Estados Unidos que más cercana se halla a territorio latino-americano, habrá de depender de las relaciones que logremos establecer con nuestras hermanas, las repúblicas del sur. Para que lleguen a ser enteramente cordiales, no hay nada tan importante como que nuestros ciudadanos se familiaricen con la lengua castellana. Tan se dan cuenta de este hecho nuestros habitantes, que hay al presente más de 25,000 personas que estudian español en Los Angeles. A ellas les conviene leer todos los días esta columna, en la que encontrarán español correcto y enteramente moderno.

### NOTAS TELEGRAFICAS

HABITACIONES PRESIDENCIALES, HOTEL PALACE, SAN FRANCISCO, julio 31.—El Presidente Harding ha pasado ya la crisis, y marcha francamente a su restablecimiento, según declaración hecha a la Prensa Asociada hoy, a última hora, por el Dr. Charles E. Sawyer, médico personal del Presidente. Manifestó el Dr. Sawyer lo siguiente: "Una vez que ya hemos dominado la toxina, puedo decir que la seguridad que ya hemos pasado del punto máximo de la curva de gravedad. Conviene, por lo tanto, mostrarme muy enfático al decir esto, pues siempre debemos tener presente que el peligro persiste."

En cuanto a la crisis, y a la que el Presidente va recordando en su discurso, el Dr. Sawyer que era imposible decir por ahora cuánto tardaría el Presidente en sentirse enteramente bien y lo bastante fuerte para regresar a Washington. "Tampoco puedo decir en este momento cuándo podremos darle alimento sólido," dijo el facultativo, "pero lo que sí puedo afirmar es que ya se halla enteramente fuera de peligro. No lo sé, pero lo siento."

Piden la Dimisión del Presidente del Reichsbank

BERLIN, julio 31.—Los Socialistas Unidos están pidiendo la dimisión de Rudolf Havenstein, presidente del Reichsbank, y de los directores permanentes de la institución, pues alegan que no han podido dichos financieros llevar a la práctica un programa de reforma económica que hubiese impedido la baja del marco. Un cambio de administración, afirma el grupo socialista, contribuiría a restaurar el crédito del Reichsbank y serviría para inspirar confianza en el país y en el extranjero. El programa de los radicales pide también la conversión al tipo de oro de la política de préstamos del banco; la triplicación de los impuestos, y la entrega de granos de granos por los productores rurales que no estén incluidos en las tarifas de contribución industrial.

### NOTAS LOCALES

Acusa el Gran Jurado a Compañías Petroleras de Fort Worth

Ayer recibió el Sr. James, Jefe de Distrito de los Estados Unidos, las esperadas acusaciones del Gran Jurado Federal, por las que se acusa a ciertas compañías petroleras de Texas, haciendo el cargo de que los directores de haber hecho uso inconveniente del correo. David V. Cahill, ayudante especial del Procurador General Daugherty, fue enviado a esta ciudad para dirigir la investigación, y en su cargo al Gran Jurado. Las compañías consignadas son la Revere Oil Company y la Oil Operators' Trust. Las cuales trabajan fuera de Fort Worth y en Fort Worth, Texas. Entre los reos individuales a quienes acusa la consignación, está el Dr. Frederick A. Cook, de la Directiva de la Revere Oil Company, el famoso explorador polar, que admitió "truques" de que había llegado antes que Peary al extremo norte del eje del mundo, y a quien dieron vergonzosos mentis los acontecimientos subsecuentes.

El Fiscal Flagela a la Vida Fita, el primer Teniente Fiscal del Jurado, pronunció ayer las siguientes palabras ante el Juez Baird, oponiéndose a la moción de que se sobreseiera en la acusación de asesinato formulada contra la vida Oesterreich: "La Sra. Oesterreich, en su fuero interno, sabe quién mató a su marido. Si no fue ella quien disparó las tres balas de una pistola de calibre 25 que cortaron la vida de su esposo, se encontraba al lado de la persona que hizo los disparos, y prestó ayuda y asistencia al asesino."

### DEPORTES

Tennis  
La Srita. Helen Wills, de Berkeley, California, y la Sra. Molla Mallory, favoritas del torneo de tennis que se disputa en el Club Campestre de Seabright, en New Jersey, ganaron ayer, en la segunda tanda, Son tal vez estas dos señoras las mejores jugadoras que hay al presente en los Estados Unidos, y es indudable que se encontrarán en las finales de las pruebas dichas.

William Johnston, de San Francisco, reciente ganador del campeonato mundial de tennis en Wimbledon, Inglaterra, ganó su segundo match. James Davies, de Los Angeles, sufrió una derrota en la segunda tanda; al paso que Howard Kinsey, de San Francisco, ganó tanto su match de primera tanda, como el de la segunda.

Boxeo  
Aunque todavía no firma la comisión de boxeo de Nueva York el permiso para la proyectada pelea Jack Dempsey-Luis Ángel Firpo, que debe celebrarse el 14 de septiembre en Nueva York, creese que las citadas autoridades otorgarán el indispensable permiso dentro de unos días. James Christy, acendrado hombre de turf de Tiburón, previendo la posibilidad de que la comisión citada niegue el permiso, ha ofrecido por telegrama a Dempsey \$10,000 por que combata en octubre en la dicha población fronteriza. A Firpo le ofreció por igual como \$150,000.

## HOSPITAL SITES ARE NARROWED

Most Modern Institution for Veterans to be Built

Plot Choice is to be Made by End of This Week

San Fernando Valley Acreage Practically Accepted

Southern California is to have in its Veterans' Hospital, adapted particularly for the treatment of tuberculosis, the most modern institution of its kind in the country. The choice of the site for the hospital, the choice of the location of the plot of ground situated between Poola Canyon and the Ocean View Sanatorium in the San Fernando Valley, is to be made this week.

Tentative plans have already been prepared and the work, which ultimately will involve an expenditure of about \$2,000,000, can be under way within thirty days, according to Daniel J. Stafford, chairman of the Southern California hospitalization committee of the American Legion.

Initial plans call for the cottage type of construction, the cottages grouped about the surgery and administration buildings. The first unit to be erected will comprise between 350 and 500 beds and this within a short time is expected to be increased to from 1000 to 1300 beds.

**SOLVE PROBLEM**

The announcement of the hospitalization plans for this section of the State was made last evening by Mr. Stafford following receipt of information that Gen. Sawyer had

## SCHOOL FIGURES SHOW GAIN

Average Daily Attendance in County Has Big Increase; Additional Teachers Taken On

The public schools of Los Angeles county had an enrollment of 212,113 during the school year ending in June of this year, according to the annual report of Superintendent Mark Keppel, filed yesterday with the Board of Supervisors and State Superintendent of Public Instruction Will C. Wood.

Of this number 12,254 were in the kindergarten, 121,974 in the common schools and 104,885 in the various high schools; and the total represents an increase over the previous year of 44,067.

To instruct this number of pupils 3729 teachers were employed, an increase of 1197 over the year before.

The total cost of maintaining the public schools of the county for the year was \$41,793,550.30, according to Mr. Keppel's report, divided as follows: Maintenance, \$22,909,238.22; building operations, \$18,884,312.08; principal and interest, \$12,974,352.22.

**FUNDS ON HAND**

The school property of the county is valued at \$43,213,241 and the bonded debt on it is \$46,371,410.

The report shows a balance on hand in the county school funds of \$14,144,448, which will be used to carry on the schools when they open in September for the fall term.

Mr. Keppel uses the school attendance to show that the population of Los Angeles county has increased 197,590 in the past year, and to show this conclusion uses the ratio of one pupil in daily attendance out of every ten inhabitants.

San Francisco had conveyed to Ralph Arnold, Republican county chairman of Los Angeles, assurances that the Federal government had at last solved the Veterans' Hospital situation for Southern California. Gen. Sawyer is chairman of the Federal committee on hospitalization.

Since leaving Washington on the trip with President Harding to Alaska, Gen. Sawyer has been in constant touch with the investigation being made by Gen. Hines, the present head of the Veterans' Bureau in Washington, to secure adequate facilities for the hospitalization of veterans of the World War in Southern California.

**ABANDON SAWTELLE SITE**

Gen. Sawyer yesterday told Mr. Arnold, who had gone to San Francisco to meet the Presidential party, that the latest advice from Gen. Hines indicated that the Federal government had abandoned as impracticable the location of the Veterans' Hospital on the Soldiers' Home grounds at Sawtelle and that a definite decision had been reached to acquire a site in the San Fernando Valley. All experts who have been consulted have agreed that the latter location offers the best opportunity for administering the work, particularly that devoted to tubercular patients.

Some time ago the Southern California Hospitalization Committee of the American Legion, which in addition to Mr. Stafford includes Attorney Robert L. Hargy and Donald Claffin, submitted to the authorities at Washington two sites in the valley. These were shown as the Brown site, including some 200 acres and for which a price of from \$400 to \$450 per acre is asked; and the Volney Craig ranch, which includes some 600 acres offered to the government at \$100,000.

While the hospital will need but 200 acres of tillable soil, and the Craig property only has about 110 tillable acres, nevertheless it is said the latter affords considerable opportunities for the construction of homes and walks into the foothills that may be highly beneficial to tubercular patients. Both sites have an elevation of from 1300 to 1400 feet above sea level.

**SETTLED AT ONCE**

Decision on the site, it is expected, will be made by the committee with the advice and counsel of Congressman Walter Lineberger, himself a member of the American Legion and particularly interested in the hospitalization work.

In the information received by Mr. Conner, the impression was given by Gen. Sawyer that the matter would be settled at once and the construction of the hospital on the cottage type undertaken immediately. The contemplated construction is to be of hollow life throughout, somewhat similar to the character of the buildings that are being erected at Livermore.

"We have been short of hospital space and facilities for the care of veterans, particularly tubercular subjects, ever since the close of the war," said Mr. Stafford. "We have much trouble here with the migratory veteran who comes to this region expecting that he can be benefited, only to find that we do not have the facilities. The discussion relative to placing the hospital on the Soldiers' Home grounds at Sawtelle gave us considerable set-back, but we are highly gratified that the question now seems to have been definitely settled."

First income tax law in this country was adopted in 1813; second was in force from 1852 to 1872.

**OHIRA HANDED BLACK SPOT**

Harbor Cafe Proprietor Appeals to Police With Tale of Death Threats in Mystery Notes

One more son of Nippon seems likely to desert the lucrative Chinese restaurant business and retire to a truck farm or join the shades of his honorable ancestors, in the view of the police of Los Angeles Harbor, to whom W. A. Ohira, proprietor of the Harbor Cafe, appealed yesterday for protection. The police gave him little comfort, and he gave the cook the air. All this happened some week or two ago.

Ohira, who is proprietor of the Green Dragon Cafe, a popular resort of Happy Valley, appeared at the police station greatly excited and waving a slip of paper. He showed it in the face of the honorable police lieutenant and spluttered.

"You say the drawing is next week or next month? What? What?" demanded the lieutenant, who thought the object was a lottery ticket.

"The honorable hatchet men!" gasped Ohira. "They desire my most august death. Every morning I find a note on the door of my honorable and excellent sleeping room—on the august morning I find the honorable door is locked each night!"

Still talking like Wallace Irwin Ohira explained that a Chinese cook, he and the cook got into difficulties after a discussion of Shantung or the sixteen de-

vice and said he might take it.

**BROWN BEAR SEEN NEAR BAKERSFIELD**

(EXCLUSIVE DISPATCH)

BAKERSFIELD, July 31.—For the first time in many years a bear was seen in the mountains close about Bakersfield, when a party of week-end campers, consisting of Mr. and Mrs. Jack Baze and Mrs. Floyd Dunlap came face to face with a brown bear as they were returning down Mt. Breckinridge to the city. A party of fishermen at Fairview also had a treat when they came from their lodgings early in the morning and saw a buck and two does feeding in an alfalfa field across the road from them.

**GARBUETT IS HERO OF SEA ADVENTURE**

Son of Sportsman Saves Companion When Boat Tips; Is Himself Rescued

How Frank E. Garbutt, son of Frank A. Garbutt, well-to-do sportsman and speed boat enthusiast, almost lost his life when Cecil B. De Mille's racer, Defiance, capsized at Los Angeles Harbor Monday afternoon, was learned yesterday at the Submarine Base, five sailors from which rescued Garbutt and wife machinists employed by De Mille, E. A. Van Dusen and Bob Arthur.

The Defiance was being tried out in racing tests. In rounding the turn at Beacon No. 2 in the outer harbor, the pilot turned too sharply, and the frail craft tipped over. The three occupants were thrown about seventy-five feet.

Garbutt held him up while the sailors from the Submarine Base, who had witnessed the incident, sped to their aid, in command of Chief Machinist's Mate Roy Walsh. Garbutt was exhausted by his efforts, however, and Van Dusen managed to seize a rope thrown from the rescuing boat, and helped his rescuer aboard the boat.

The three men were treated at the Submarine Base Hospital, and were then taken to their homes, where they were reported yesterday to be fully recovered.

**SUSPECT IS DISGUISED AS WOMAN**

Police Unearth New Angle in Hotel Murder Mystery; Brawl Indicated

Accused by police of living for the last three days in a rooming house at Fourth and Wall streets, disguised as a woman, Oswald Baron was arrested by Detective Lieutenant Smith and Officers Romero and Lofthouse last night in connection with the murder of M. E. Gusman, found with his throat slashed in the Argonaut Hotel at 255 East First street, Sunday morning.

In Baron's company the officers arrested Christopher Cordova. They declared the pair had been posing as man and wife for the past two or three days.

Searching the room, officers said they found a photograph of Baron dressed as an actress.

The arrests increased to five the number of men held in connection with the death of Gusman, three others having been jailed Monday afternoon.

Information obtained from the suspects, police said, indicates that Gusman was killed in a fight which broke out in the hotel room last Saturday night. The room's furniture had been broken and the three walls splattered with blood.

**COOTE CREDITORS TO GO AFTER RESOURCES**

A committee of five has been appointed at a meeting of creditors of A. W. Coote to investigate the finances of the bankrupt and suggest a program "that would bring the best results to the creditors."

The committee consists of Arthur Herman, chairman, Joseph L. Lewinson, Kyle Z. Granger, J. L. Lesser and Mrs. Flora Watson. At the meeting the creditors banded themselves into an organization to be known as the Creditors' Protective Association. The purpose of the organization is to protect themselves from Coote's failure and to see that the assets remaining from Coote's failure are properly applied to the payment of his obligations.

The majority of these present decided that this could best be done through the bankruptcy court, but the committee was appointed to make a more careful investigation.

**COOTE FAILURE FAILS TO STIR COMPLAINTS**

(EXCLUSIVE DISPATCH)

BAKERSFIELD, July 31.—No local complaints against A. W. Coote of the defunct brokerage firm bearing that name have been filed with the District Attorney's office, according to H. E. Schmidt, in so far as no local complaint has been made, no official investigation will be conducted here.

Schmidt stated that involuntary bankruptcy proceedings were filed against Coote several weeks ago.

Patron Saint of the Fishermen

Isaac Walton achieved a reputation as a fisherman and yet judging from his own writings there are many more who have done more fishing, knew more about fish and fishing tackle and who told bigger tales of fish catching than Dr. Van Dyke. Walton owes his primacy to first of all, his ability as one of the most beautiful users of the English language that has ever taken a pen into his hand.

And the second thing to which he owes primacy is his character as a man. His character is as beautiful as his writing.

**MEASURING RAINFALL**

Water Is Collected in Glass Receptacle Graduated in Half Inches

What does the weather man mean when he says: "The rainfall for Tuesday was 1.62 inches?" Rainfall is measured by means of a rain gauge. A rain gauge consists of a small metal cylinder, the top of which is in the form of a funnel with a specified diameter. Inside the cylinder is a glass vessel for collecting the rain. The rim of the funnel is usually composed of brass, while the rest of the contrivance is of copper or japanned metal, which serves as a protection against rust.

Various types of rain gauges are in use at the present time. Some have a diameter of eight inches and contain a metal bucket, from which the rain is measured; others are three inches smaller, and contain a glass vessel graduated in half-inches, from which the water is poured into another more finely graduated bottle.

In one invention the rain from an ordinary receiver passes to a cylinder fitted with a float. To the float is attached a lever, which raises and lowers a sliding pen. The latter works on the rest of the contrivance, the instrument often seen in windows of optician's shops. When the rain has been measured, the sliding cylinder is shifted, and readings begin again at zero.

—(New York World.)

**LIONS ROAR AT EXPOSITION**

Attendance Outdistances Most Sanguine Hopes; Special Features Planned for Today

Attendance at the Motion Picture Exposition yesterday outdistanced the most sanguine hopes of officials and with members of the Lions' Club, the honor guests of the day, a roaring success for the remaining few days of the affair was assured. The Apartment-house Association, the Union Oil Company were also honored in the day's program, and Dorothy Phillips, Associated First National cinema star, acted as hostess.

Officials of the exposition announced late last night that the plans for today's program, originally designated as Harding Day, were to be carried out as planned, although the President has been forced to cancel his engagement here because of illness. As an expression of the good will that Los Angeles holds for the Chief Executive, the exposition has arranged for the presentation of the thousands of school children who are to attend the exposition, will be taken and sent to Washington where the President may view the reception which had awaited him here.

The City Wide Boys' Club, sponsored by the Lions, took on a special program of boxing contests, wrestling, and other athletic events during both afternoon and evening, with their own jazz orchestra, and a special program of the dinner that was held in Brandt's restaurant, the Garden Cafe.

Mr. Arthur Macdonald, chairman of the program, in the Women's Auditorium, presented an exceptionally fine list of attractions. The program, which will be free of charge, included the presentation of the "Mystery of the Phyllis Fortune" by Mr. Robert H. Hargy, and the presentation of the "Mystery of the Phyllis Fortune" by Mr. Robert H. Hargy, and the presentation of the "Mystery of the Phyllis Fortune" by Mr. Robert H. Hargy.

## FILM ACTRESS TO ASK DIVORCE

Corinne Griffith Means to End "Romance"

Husband, Webster Campbell, Picture Director

Suit Will be Filed in New York, Star Says

A girlish romance, a madcap elopement, five or six years of seemingly happy-married life, and then—

Disagreements and finally a really serious estrangement.

And now Corinne Griffith, regarded as one of the loveliest of screen sparklers, definitely admits the probable severance of the marriage tie that binds her to Webster Campbell, picture director.

"A reconciliation is now out of the question," she said. "The marriage contract, on which we were settled,"

Such was her decision yesterday on her arrival from New York where she had been for the last month, she stated further that divorce proceedings will be shortly instituted, the case being in the hands of her New York attorneys.

**PARING OF THE WAYS**

Actually, Miss Griffith and Mr. Campbell reached the parting ways about a year ago. It was at that time that the fascinating picture star came to California to work for Vitaphone. Shortly after, she obtained her divorce and appeared in "The Common Law" for Selznick.

The domestic rift and the break in the continuity of her starring career, which she had been engaged for several years in the East, followed right on the heels of each other, and both changes she regards as having been for the better as far as her career is concerned.

**MARRIED VERY EARLY**

"I was not yet of age when I married Mr. Campbell," she said. "In fact, I ran away from home to be wed. While I was really just a youngster, I happened to meet a man who was just at the beginning of my career then, and our romance seemed to promise everything of happiness."

"It was just a lack of the deeper understanding that should exist between two persons that finally led to our separation. Incompatibility of temperament, I suppose you would call it. It commenced to show itself two or three years after we were married, and then grew day by day. Gradually we drifted apart, and it became unbearable after a time, and so we had to separate."

**PLAN DIDN'T WORK**

It was about a year and a half ago that Mr. Campbell commenced to direct his wife in pictures, and for a time it looked as if this might mean a new era of happiness. The unity of ideals in work did not, however, make for the unity of ideas in life, and they found this was a makeshift.

"I cannot say whether romance is dead with me or not now," declared Miss Griffith. "The way I feel today I shall never marry again. I loved my husband very deeply. I loved him very much, and I shall never marry again."

**GARBUETT IS HERO OF SEA ADVENTURE**

Son of Sportsman Saves Companion When Boat Tips; Is Himself Rescued

How Frank E. Garbutt, son of Frank A. Garbutt, well-to-do sportsman and speed boat enthusiast, almost lost his life when Cecil B. ## GETS GRACE IN PAYMENT OF ALIMONY

Fifth Husband of Mrs. John Godfrey Escapes Jail for Contempt of Court

John Phillips Godfrey was adjudged in contempt of court and ordered sent to jail by Judge Cole yesterday for asserted failure to pay \$375 due his wife as temporary alimony. As a compromise, however, he was given twenty-four hours to make payment.

The action came at the end of a hearing on Godfrey's motion to modify the alimony rate of \$125 a week Mrs. Bartie St. Godfrey several weeks ago. Mrs. Godfrey, through her attorneys, the legal firm of Smith & Morse, opposed the motion.

Mr. Godfrey first filed suit for divorce and his wife countered with a cross-complaint. In each case the ground was cruelty.

Mrs. Godfrey had four husbands before her marriage to Godfrey. It developed yesterday during cross-examination of the wife by Attorney Youngworth. She admitted that she had married Philip F. Peck in 1905, Robert A. May in 1910, Blaine J. Brickwood in 1912 and Howard B. Drollinger in 1915.

Mrs. Godfrey admitted that she had received \$20,000 from Mr. May at the time of her divorce, but said the amount was intended for the care of their daughter Ruth. She said that she had invested some of this money in real estate and made a profit of \$400.

The wife also admitted receiving some alimony from Mr. Brickwood, but denied that she had received \$10,000 after the termination of her marriage to Mr. Drollinger.

Mr. Youngworth asked her how she was able to drive about in expensive automobiles and she said the machines belonged to her daughter. She said that the \$125 a week she obtained from Mr. Godfrey was barely sufficient to cover her needs and that she had borrowed some money to pay household expenses.

Mr. Godfrey is the adopted son of Mrs. Mary Ayer Godfrey. The hearing on the divorce has been set for November, next.

**COOTE CREDITORS TO GO AFTER RESOURCES**

A committee of five has been appointed at a meeting of creditors of A. W. Coote to investigate the finances of the bankrupt and suggest a program "that would bring the best results to the creditors."

The committee consists of Arthur Herman, chairman, Joseph L. Lewinson, Kyle Z. Granger, J. L. Lesser and Mrs. Flora Watson. At the meeting the creditors banded themselves into an organization to be known as the Creditors' Protective Association. The purpose of the organization is to protect themselves from Coote's failure and to see that the assets remaining from Coote's failure are properly applied to the payment of his obligations.

The majority of these present decided that this could best be done through the bankruptcy court, but the committee was appointed to make a more careful investigation.

**COOTE FAILURE FAILS TO STIR COMPLAINTS**

(EXCLUSIVE DISPATCH)

BAKERSFIELD, July 31.—No local complaints against A. W. Coote of the defunct brokerage firm bearing that name have been filed with the District Attorney's office, according to H. E. Schmidt, in so far as no local complaint has been made, no official investigation will be conducted here.

Schmidt stated that involuntary bankruptcy proceedings were filed against Coote several weeks ago.

Patron Saint of the Fishermen

Isaac Walton achieved a reputation as a fisherman and yet judging from his own writings there are many more who have done more fishing, knew more about fish and fishing tackle and who told bigger tales of fish catching than Dr. Van Dyke. Walton owes his primacy to first of all, his ability as one of the most beautiful users of the English language that has ever taken a pen into his hand.

And the second thing to which he owes primacy is his character as a man. His character is as beautiful as his writing.

**MEASURING RAINFALL**

Water Is Collected in Glass Receptacle Graduated in Half Inches

What does the weather man mean when he says: "The rainfall for Tuesday was 1.62 inches?" Rainfall is measured by means of a rain gauge. A rain gauge consists of a small metal cylinder, the top of which is in the form of a funnel with a specified diameter. Inside the cylinder is a glass vessel for collecting the rain. The rim of the funnel is usually composed of brass, while the rest of the contrivance is of copper or japanned metal, which serves as a protection against rust.

Various types of rain gauges are in use at the present time. Some have a diameter of eight inches and contain a metal bucket, from which the rain is measured; others are three inches smaller, and contain a glass vessel graduated in half-inches, from which the water is poured into another more finely graduated bottle.

In one invention the rain from an ordinary receiver passes to a cylinder fitted with a float. To the float is attached a lever, which raises and lowers a sliding pen. The latter works on the rest of the contrivance, the instrument often seen in windows of optician's shops. When the rain has been measured, the sliding cylinder is shifted, and readings begin again at zero.

**LIONS ROAR AT EXPOSITION**

Attendance Outdistances Most Sanguine Hopes; Special Features Planned for Today

Attendance at the Motion Picture Exposition yesterday outdistanced the most sanguine hopes of officials and with members of the Lions' Club, the honor guests of the day, a roaring success for the remaining few days of the affair was assured. The Apartment-house Association, the Union Oil Company were also honored in the day's program, and Dorothy Phillips, Associated First National cinema star, acted as hostess.

Officials of the exposition announced late last night that the plans for today's program, originally designated as Harding Day, were to be carried out as planned, although the President has been forced to cancel his engagement here because of illness. As an expression of the good will that Los Angeles holds for the Chief Executive, the exposition has arranged for the presentation of the thousands of school children who are to attend the exposition, will be taken and sent to Washington where the President may view the reception which had awaited him here.

The City Wide Boys' Club, sponsored by the Lions, took on a special program of boxing contests, wrestling, and other athletic events during both afternoon and evening, with their own jazz orchestra, and a special program of the dinner that was held in Brandt's restaurant, the Garden Cafe.

Mr. Arthur Macdonald, chairman of the program, in the Women's Auditorium, presented an exceptionally fine list of attractions. The program, which will be free of charge, included the presentation of the "Mystery of the Phyllis Fortune" by Mr. Robert H. Hargy, and the presentation of the "Mystery of the Phyllis Fortune" by Mr. Robert H. Hargy.

The majority of these present decided that this could best be done through the bankruptcy court, but the committee was appointed to make a more careful investigation.

## Bladder, Kidney Trouble Banished or Money Back

California Vitamins Mineral Water  
Baths Will Restore You to  
Health—Positively!

This marvelous remedy from Mother  
Nature's Laboratory effectively elimi-  
nates all poisons from the body, caus-  
ing the organs to function normally.  
Will reduce high blood pressure,  
Eliminate Bladder, Kidney trouble,  
Bright's Disease, Diabetes, Prostatitis,  
(which is the result of poisons in the  
system) and other allied complaints.

You must be satisfied that you are  
well or the treatment costs you nothing.  
You are the Judge and Jury.  
California Vitamins Mineral Water  
Baths have banished these diseases for  
thousands—it will do it for you. No  
matter what you have tried—try this  
guaranteed remedy. Pay \$1.00 today  
for trial treatment at the leading  
druggists, including Sun Drug Co.

# Studebaker

# 1852-1924

Los Angeles has paid Studebaker a most gratifying tribute.

The announcement of the new series 1924 Studebaker six-cylinder motor cars made on July 22, resulted in a flood of business. Every record for six-cylinder sales covering a similar period has been broken.

As Studebaker distributors we are delighted and keenly appreciative of the enthusiastic reception accorded these new models.

The 1924 series of Studebaker Satisfying Sixes is a wonderful line of motor cars. In making the announcement of these new cars President Erskine of the Studebaker Corporation of America did not use a single superlative. We, however, cannot resist. If ever superlatives were justified, then in this case they are certainly permissible now.

From the standpoint of modern motor car design and production the 1924 Studebaker models are a distinct achievement. Every engineering improvement and refinement that exhaustive research has developed and proven as safe, desirable and practical has been incorporated.

The beauty of their appearance and finish can be seen at first glance.

Their performance can be tested at your convenience.

Obtaining a sufficient supply of these new cars to meet the demand is, obviously, our difficult problem. Hundreds of motorists in Los Angeles have been unable to obtain Studebaker Sixes at the time they needed them and had to accept second-choice cars.

We are always making strenuous efforts to obtain an increased quota of the Studebaker production and have already begun making deliveries of the 1924 models. Orders are being filled promptly in rotation.

## PAUL G. HOFFMAN CO. INC.

1250 South Figueroa Street  
6116 Hollywood Boulevard  
150 West Jefferson Street  
Inglewood, 240 No. Market St.

Our new Jefferson Street Store and Service Station opened its doors on July 27, at 150 West Jefferson street.

It is one of the finest and best equipped automotive establishments in the entire West.

During the past year the Paul G. Hoffman Company, Inc., has opened two other new stores—one is at 6116 Hollywood Boulevard and another at 240 North Market Street, Inglewood.

These neighborhood stores and service shops have been located at points where they would best serve public convenience. They are our acknowledgment of our obligation to Studebaker owners to serve them conveniently, efficiently and in a friendly manner.

POWER COMFORT

CORN PROFITS;  
WHEAT LOSSESFormer Grain is Larger and  
More Valuable CropPlight of Farmer is Not So  
Bad in Broader ViewBuilding Trade Conditions  
Generally Satisfactory

BY ARTHUR D. WELTON

(Exclusive Dispatch)

CHICAGO, July 31.—"What I

make on the peanut I lose on the banana," grumbled the proprietor

of the fruit stand. The western

farmer has neglected to consider

the analogy. He hasn't said that

what he makes on his corn he

loses on his wheat and leave

him something over.

In considering any general situation

the valuation of the elements

that enter into it is more important

made. Reading about wheat at \$1

or less, the conclusion is quickly

reached that the plight of the

farmer is desperate, with the elec-

tion of Magnus Johnson as Sena-

tor in Minnesota as evidence.

Reading about corn, the situation

is changed.

Corn is a larger, more valuable

and more profitable crop than

wheat. It is more important

as it is marketed in the form of cat-

tle and hogs and the marketing

can therefore be distributed over

the whole year. Australia, India

and Russia are not competitors of

corn. Corn is not exported as corn.

If the government's latest crop

figures and the present price of

wheat are used, the season's wheat

crop is worth \$741,000,000. Last

year the wheat crop was worth

\$844,000,000. The farmer is re-

ceiving virtually \$100,000,000 less

for wheat than he did last year.

Of course, all farmers do not raise

wheat, but in a statistical way Gen-

erel Brookhart's 45,000,000 farm-

ers are receiving for wheat about

\$2.20 less each than they received

for wheat last year.

CORN CROP VALUES

The value of the season's corn

crop by the same method of fig-

uring is \$2,489,000,000. Last year

it was \$1,784,000,000. On corn the

farmer is \$705,000,000 ahead. Of

course, all farmers do not raise

corn, but in a statistical way the

\$6,000,000 mentioned will receive

for corn about \$1.35 more each

than they received last year.

The present difficulty is that the

wheat growers are concentrated so

far as dislocation is concerned. The

claim comes from those who are

in the States that produce the sur-

plus above the amount demanded

for domestic consumption. There

is no wheat problem in Pennsylv-

ania, but Pennsylvania raised

25,444,000 bushels of wheat last

year, or in Ohio, and Ohio raised

25,444,000 bushels in 1922. In

1923 Ohio produced more wheat

than Minnesota. In fact, Minne-

sota is a corn State. Its 1922 pro-

## TAX APPEALS TO COME UP TODAY

New Field Committee Will Conduct Hearings

Three Assessment Cases to be Considered Daily

Sending of Income Board to Act is Experiment

The newly created board to hear appeals from income-tax assessments, known as the field committee, which is composed of Robert J. Service, chairman; Leroy Russell and C. F. Smith, former Assistant Commissioners of Internal Revenue, will begin its sessions in Judge Blodgett's courtroom this morning.

After a conference yesterday with Collector Goodell, Chairman Service announced that three cases would be heard each day. The session of the internal revenue board will be held in the latter part of September and cases pending from Utah, Nevada, Arizona and California will be heard. Chairman Service is said to be one of the ablest members of the Board of Appeals and Review at Washington.

Taxpayers are urged to have their cases ready to be submitted. Only cases which have been submitted to the income-tax unit at Washington and from whose decision the taxpayer has appealed will be heard. However, taxpayers may, upon request to Commissioner Blair, have cases which they have submitted to Washington transferred to the board that will hold hearings here.

The committee on Appeals and Review is a body independent of the income-tax unit and was created by Commissioner Blair to consider appeals from the income-tax unit. When decisions of the board are submitted to the Commissioner of Internal Revenue, the taxpayer has the right to appeal to the Federal court after having paid the tax assessed.

The sending out of this Board of Appeals and Review is an experiment and whether the practice will be continued depends on the success of the experiment. Collector Goodell said yesterday, "It means that the internal revenue bureau is going out into the country to meet taxpayers instead of the latter having to go to Washington at great expense."

It also means that many taxpayers, where small amounts are involved and where the practice is to go to Washington, will have a hearing close to their homes. Chairman Service said yesterday that all hearings he conducts will be in the same confidential manner in which matters of taxpayers are treated in the office of Collector Goodell. All evidence considered upon appeals must have been submitted previously to the income-tax unit.

## HARDING'S AIDE TO COME HERE

(Continued from First Page)

Commander of Southern California, arrived in full Templar uniform. The ranks will be augmented, it is announced, by a large number of northern commandaries which have already signified their intention to participate.

The line of march, with the parade scheduled to move at 3 p.m., is westward along Hollywood Boulevard to Highland avenue; northward along Highland to the Duval, passing in review before Right Honorable Sir Albert E. Byrnes, Grand Commander of California.

Community singing, with "America" as the first selection, will open the program at the Hotel at 4 p.m. Rev. Frank Roundbush, pastor of St. Thomas Church and president of the Grand Commandery, will give the invocation. Following an opening address by

## ARGUE NAME OF BOULEVARD OIL COMPANIES ARE INDICTED

Public Works Committee Hears Pro and Con on Changing Sunset to Hollywood

The Council's Public Works Committee yesterday afternoon heard the pro and con of the proposal to change the name of Sunset Boulevard to Hollywood Boulevard.

A majority of the property owners on Sunset Boulevard made the request of the Council some days ago. They argue that to name it Hollywood Boulevard would make one continuous street of that name from the Plaza to Hollywood.

But it appears that most of the residents of what is now Hollywood Boulevard object to the change. The Hollywood Chamber of Commerce, likewise the Los Angeles Realty Board, objects to the change. The "Hollywood" objection is that the name Hollywood Boulevard is proper to Hollywood, starting now at the dividing line between Hollywood and Los Angeles proper; that Sunset Boulevard continues to Beverly Hills and is a through route to that district; also that to change the name of Sunset would increase traffic on the now overtaxed Hollywood Boulevard.

"Gentlemen," said Councilman Wheeler of the committee, "you put us in the position of dilemma about to cut the baby in two. So we will resort to the time-honored custom of passing the buck, and put it up to the Council as a whole."

Mr. Wheeler hinted that the outcome might be a request for a poll of the property owners of both Sunset and Hollywood boulevards and let the majority rule. The meeting at the Council was defeated before the old Council.

Grand Commander Byrnes, Secretary of the Grand Commandery of the Order of the Bannock, will lead in the hands of Eminent Sir James W. Wilson, Commander of Hollywood Commandery, the baumeant, significant of the change in which the Ohio Knights Templars hold their Hollywood headquarters.

The meeting at the Board will be one of the largest Masonic functions in recent years in Southern California. The Grand Commander has issued orders in which all commanderies throughout the State to participate and has called a large number of members to the honor of the occasion. The Hollywood Commandery has also planned an extensive program of entertainment for the Grand Commandery officers.

## ACCUSE PARROT AS "SINISTER" ARMY TRAINING CURE FOR REDS

(Continued from First Page)

the last two years and why you have failed to understand me and my position. During most of my shadow has fallen across the path of the Harbor Board at nearly every step. I began to feel that the Harbor Board was not the President of the Harbor Board when I was asked by Dr. E. J. Lickley (now in the military) to use my influence to have Mr. Parrot appointed to the position of attorney for the Harbor Board. All these influences were doubtless unknown to me. I have never met Mr. Parrot. I was talking about, and my position and reputation should have caused you to look into the matter.

"I rejoice with the bulk of the citizens of Los Angeles that this state of affairs has been unearthed. Sorry that there are those who have played you false and grateful to those who are bringing about a change."

"There still are conditions connected with the harbor administration that you should know, and I should be glad to meet you, either in private or in public, to acquaint you with certain facts. I have deep concern for the harbor and its success and I have also the kindest feelings for you and your administration."

Mayor Cryer yesterday said it was his recollection that he had instructed Mr. Kinney or some one else in his office to answer Mr. Richards' letter, but that perhaps in the rush of preparation for the President's visit it had escaped attention. The Mayor said he would be glad to talk with Mr. Richards about his charges.

Late yesterday afternoon Mayor Cryer reiterated his stand on the question of pernicious politics in the police department.

"I am absolutely opposed to any political influence interfering with the success of the police department. I have had a talk with both Police Commissioners today and feel certain that we can approach the matter with open minds and thoroughly go into the facts."

wood and Los Angeles proper; that Sunset Boulevard continues to Beverly Hills and is a through route to that district; also that to change the name of Sunset would increase traffic on the now overtaxed Hollywood Boulevard.

establish a sane, practical and efficient program of national defense is one of the greatest movements we have undertaken."

In bringing to a close his plea for support of the military program, Gen. Pershing drew attention to the thirty-six destroyers, the best of their kind, now on the road to rot, idle and unmanned, because of lack of sufficient naval appropriations.

After inspecting Rockwell Field, Fort Rosecrans and North Island Naval Base, the general paid a tribute to the officers and citizens who have built up such establishments in and around San Diego. He paid particular compliment to Admiral Roger Welles, who has been in command locally for the last three years, but who has been transferred to the United States Naval District at Norfolk, Va.

Gen. Pershing and his aide, Col. Marshall, left for military posts and citizens' training camps in the north this afternoon.

Arriving in Los Angeles from San Diego last night, Gen. Pershing stopped off between trains to take dinner with Gen. Kobbe, U.S.A., retired, of Pasadena. When he left his train at the Santa Fe depot, Gen. Pershing had donned a civilian suit of gray. He walked unnoticed through a crowd of people gathered at the depot to meet him. Following the Gen. Kobbe visit, Gen. Pershing left for the north on the 8:30 train. He is accompanied by his aide, Col. Marshall.

SCHOOL PRINCIPAL CHOSEN (SPECIAL DISPATCH)

CHINO, July 31.—An announcement today was made by the school board of the election of L. M. Oberkötter of San Diego as principal of the Chino High School. He will succeed E. J. Shives, who was principal last year.

Chief producers of the are the British Empire and the Netherlands East Indies.

CHARGE LARGE PROFITS It is further charged that it was set out in printed literature and newspaper advertisements that the money of Marshall Spoons was invested with the money of the persons sought to be defrauded; that the profits were piling up every day; that it was one of the most profitable enterprises in the oil business that was ever organized; that the small investment meant a fortune; that the profits of the Oil Operators' Trust after November 13, 1921, would startle the financial world. That the December 31, 1921, the Oil Operators' Trust had a balance of \$52,961.80; that a balance sheet was submitted showing appreciation of the Arkansas leases of the trust in the sum of \$37,425, and the Texas leases and royalties \$446,924.47; reserves for Federal taxes and contingencies to the amount of \$100,000, and for distribution in the amount of \$600,000, and a surplus outstanding amounting to \$52,961.80.

It was asserted, it is charged, that there was no permit or production interests in the Oil Operators' Trust to anyone; that all funds less only operating expenses, would be paid to the Oil Operators; that the profits would be not be paper profits. It is charged that the defendants were not the representations were false and untrue.

The indictment against the backers of the Oil Operators' Trust is based on letters written to Mrs. E. J. Legg, 4535 Hawley Boulevard, Redondo Beach, California, by Mrs. E. J. Legg and Mrs. N. C. Whipple, 1125 Angelina street, Los Angeles; Anne K. Steinbock, 315 San Pedro street, Los Angeles; D. L. C. Pendleton, 1113 South Los Angeles street, Los Angeles; and Mrs. E. J. Legg, 4535 Hawley Boulevard, Redondo Beach, California.

Afternoon tea and the cool climate of England are causes given for the disinclination of the people to patronize soda fountains.

## KEWPIE DOLL HIS NEMESIS

Tattooed Figure on Arm Leads to Arrest of Soda Jerker by Ice Cream Filled Deputy

A bright little Kewpie doll, tattooed in gleaming colors on his left forearm, led to the arrest here yesterday of Glenn Conrad, debonaire soda jerker, wanted at Phoenix, Ariz., on a forgery charge.

The arrest was made by Deputy Sheriff Stensland, who put his ability to down an amazing number of sodas, phosphates and other relatively mild concoctions to excellent use in trailing his man.

Some days ago the Sheriff's office received a communication from Phoenix requesting that Conrad be picked up and held. The communication was turned over to Deputy Sheriff Stensland for work. The message stated that Conrad was a soda jerker. It also bore the information regarding the Kewpie doll.

Armed with these facts, Stensland set out yesterday. He made the rounds of a majority of the soda fountains in the city. At each

place he would look from the inside," demanded Cline. "Oh, God! This is too much," cried the witness. "Nobody changed that look," she said in answer to a question from the detective. "People from the California Furniture Company painted the door, but I never ordered the look altered."

"Whom did you tell that 'some one was going to shoot that fat-headed husband of yours?' asked Cline.

She did not answer this. In reply to a question from Attorney Dominguez yesterday, Lieut. Cline answered that Roy Klumb told him she said this.

The report from Milwaukee police, read in court Monday, stated that Lieut. Cline was the cause of several passages-at-arms between Conrad and the police. During the morning session yesterday, Mr. Gessler made a motion that it be stricken from the record and read extracts from the report to the jury.

Justice Baird ruled that the report was hearsay and violated a defendant's constitutional rights, and therefore ruled it out. However, he allowed to stand the answers Mrs. Oesterreich made at the time the report was read to her by the detectives last August.

When confronted with the report, last year she denied that she ran away with the sewing-machine agent, insisting that she merely went to visit relatives and was on the same train with the agent.

Lieut. Cline recounted various experiments he had made with the disputed look. He said that he succeeded in looking himself within the closet unaided. He said the look had been changed after the murder.

Mr. Pitts handled the State case alone yesterday. Mr. Clark being called to Fresno because of his mother's death.

Mr. Dominguez then asked Lieut. Cline to witness to give the name of the San Francisco man. Cline was unable to do so. "Oh, God! This is going to kill me," she cried during the interview. "We were children when we married, and we grew up together."

Lieut. Cline testified that she was calm during the Hollywood interview, but became faint when asked for a glass of water when, at Central Station, Herman S. Shapiro came into the room. A swift interchange between counsel came while Lieut. Cline was on the stand. Mr. Dominguez, implying that the detective had used the third-degree methods upon his client, asked the witness if there was any witness bearing in on the case which he had not as yet put before the court.

Lieut. Cline was then moving to his next stand, Lieutenant, said Mr. Dominguez.

With the detective, who had worked up the case against the widow, upon the stand as a defense witness, Mr. Dominguez pronounced the same question, which was allowed by the court.

"No," answered Cline. This was the sole bit of testimony given by the witness for the defense.

The reading of the Hollywood interview brought out the startling statements by the widow, who, since her arrest, has maintained silence.

When Lieut. Cline faced her in the Hollywood interview with the statement that she had given away two pistols, and showed her the weapons, she exclaimed: "Honest to God, Mr. Cline, I never did give Klumb a gun."

"I'll explain that when the proper time comes," she replied. "If you can't tell me now," said the detective, "we'll be forced to lock you up."

Mr. Dominguez brought out the fact that the first intimation the jury had that the witness was the wife of Conrad was from the interview held by Herman S. Shapiro, attorney for Mrs. Oesterreich.

ASKED ABOUT WATCH "Where is the watch?" asked Lieut. Cline during the interview. "Mr. Shapiro has it," she answered.

"So Shapiro is wearing your dead husband's watch and has been living with you?" asked Cline. "Yes," she replied, "since last January."

"People have been lying about me," cried Mrs. Oesterreich at the time she was arrested. "I did not quarrel with my husband. I have had arguments about religion, but when people talk about that they don't know what they are saying. I did not kill my husband; no one has the right to kill him. He was a fine man and a patriot of me. There was nothing that man wouldn't buy of me. He was like a father to me."

## WIDOW FLAYED BY PROSECUTOR

(Continued from First Page)

der the guise of prospective purchasers of his business, detectives became friendly with the widow, questioned him concerning his relations with Mrs. Oesterreich. He is believed to have made certain statements to the police in 1922 to her.

Reading from the Hollywood interview, with Lieut. Cline on the stand, Attorney Dominguez asked the witness if she admitted having met the butcher downtown upon one occasion, when she watched him eating dinner.

"I wouldn't pick up with a man like that," read Mr. Dominguez. She denied having gotten drunk with Dietrich, and telling him "a lot of stuff," as the police asserted she did.

DENIES WIFE'S ANGER She also denied that Mrs. Dietrich became angered at her association with him, and employed her as a waitress at the cafe. She further declared that the only conversation she had with him was concerning meat.

The records of the Oesterreich estate, proving it to be valued at \$128,000, and a will naming her as the sole legatee, were introduced in evidence by Mr. Pitts.

"Who was your San Francisco sweetheart?" asked Lieut. Cline in Hollywood.

"I didn't have a sweetheart in San Francisco," she told him. Mr. Dominguez then asked Lieut. Cline to witness to give the name of the San Francisco man. Cline was unable to do so.

"Oh, God! This is going to kill me," she cried during the interview. "We were children when we married, and we grew up together."

Lieut. Cline testified that she was calm during the Hollywood interview, but became faint when asked for a glass of water when, at Central Station, Herman S. Shapiro came into the room. He was a fine man and a patriot of me. There was nothing that man wouldn't buy of me. He was like a father to me."

Referring to the years she spent laboring with Oesterreich in his Milwaukee factory, she said: "How can a woman be bad when she works hard all the time? I'm not deserving, as lock me up. But I'm not a bad woman. I tried to live a Christian life since Fred was killed. I have regained a little of my health and I was planning to build a new home when he had to come here. I won't explain about that Farber guy. My friends have lied about me, so put it away in jail had arrested. "Whom did you tell that that lock on the closet door could be

## POLICE LOCATE 'ATTACKED' GIRL

Long Beach Mystery Ends in  
Los Angeles Hospital

Mother Says Daughter Has  
Unbalanced Mind

Asserts "Fight" Was Merely  
to Restrain Violence

By a "Times" Staff Correspondent  
LONG BEACH, July 31.—The  
mystery of Long Beach police for the  
body of a girl believed to have been  
murdered last Thursday night,  
ended in the psychopathic ward  
of the General Hospital in Los An-  
geles today, after Mrs. Catherine  
Gooding, the girl's mother, had  
told her story to Captain of De-  
tective Worley.

The mother said her daughter  
Helma Thomas, 18 years of age,  
has been mentally unbalanced for  
twelve years and that last Thurs-  
day night she and a roomer, Ivo  
Gooding, battled with the girl on a  
vacant lot near her home in an ef-  
fort to take her in automobile to  
her grandmother in Pasadena.

**WORKERS WITNESSES**  
Oil workers who witnessed the in-  
cident reported that a woman and a  
man fought with the girl, struck  
her several times, beat her and  
threw her upon her prostrate body,  
which they tied with ropes. Then  
the workers said they threw her  
body into an automobile and drove  
off. The workers were holding up  
a heavy piece of machinery and  
were unable to interfere.

**JUMPED FROM CAR**  
On their way to Pasadena Thurs-  
day night, the mother said, the girl  
broke away and jumped out of the  
car, the front wheel passing over  
her leg and seriously bruising her.  
She said the girl spent two nights  
with her grandmother and on  
Saturday afternoon last was admit-  
ted to the General Hospital.

Mrs. Gooding said she came to  
Long Beach from Bakersfield two  
months ago, has had the girl in  
custody for treatment several  
times and that she has been several  
times discharged as cured.

Capt. Worley took the mother's  
story and said he will turn the tes-  
timony over to the District At-  
torney's office for investigation.

## RAISIN QUIZ RENEWAL IS SUSPECTED

Federal Men Believed to  
be Investigating Asserted  
Antitrust Law Violations

Renewed investigation of as-  
serted violation of the Federal  
antitrust law by raisin growers in  
the San Joaquin Valley is said to  
have been the purpose of a con-  
ference in San Francisco yesterday  
between U. S. Atty. Burke and U. S.  
Atty. Williams. The party was  
attended by Herbert Ellis, desig-  
nated several months ago by Atty.-  
Gen. Daugherty to have charge of  
antitrust cases in this jurisdiction.  
Mr. Burke and Mr. Ellis will re-  
turn to Los Angeles this morn-  
ing. While no official information  
has been given, it is understood  
that the officials are studying the  
activities of the California Asso-  
ciated Raisin Company, with head-  
quarters at Fresno.

An action was brought against  
the Fresno company three years  
ago and dismissed later.  
Yesterday's conference at San  
Francisco is the second concern-  
ing this case recently. Officials in  
the United States Attorney's office  
yesterday declined to state the  
precise nature of the investigation,  
or the organizations involved.

## Daugherty to Go on Stand in Kirby Case

Corporation Commissioner  
Daugherty will be the principal  
witness today against Joseph  
Kirby, former president of the  
Cleveland Discount Company, and  
Carroll Kirby on trial in Judge  
Sawyer's division of the Superior  
Court on a charge of violating the  
Corporate Securities Act.

Several prosecution witnesses  
testified yesterday. Among these  
was Harry L. Voss, former office  
manager of the company, who de-  
clared the Kirbys had investigated  
securities certificates instead of stock,  
in violation of the law. Voss iden-  
tified two of these certificates.  
Thomas E. Hughes, who acted as  
local salesmanager for the com-  
pany, also testified.  
Judge Walter D. Meals of  
Ohio and Attorneys Cosgrove and  
Williams are defending the Kirbys,  
while Dep. Dist. Atty. Hill is  
prosecuting.

## GEN. FRIES SPEAKS AT MASONS' MEETING

PART PRAYED BY CHEMICALS  
IN WAR AND PEACE  
TO BE SUBJECT

Brig.-Gen. Amos A. Fries, chief  
of the Chemical Warfare Division,  
U. S. A., will address the luncheon  
meeting of the Masonic Club in  
the club dining room today. The  
subject will be "The Use of Chemi-  
cals in War and Peace." This  
meeting will be open to members  
and their Masonic guests.  
The Masonic Club Orchestra,  
consisting of Dick Bailey, director;  
Walter A. Lindell, piano; David  
Humberg, violin; Harry C. Knox,  
saxophone; Jack Cronshaw,  
trumpet; Virgil Sewall, trum-  
bone; Stephen Ferrine, cornet;  
Fred Hammes, bass; Fred C. Jones,  
and Harry Hart, drums;  
will give an appropriate program.

# Bullock's August Clearance

## "The One Sale of the Year"

# August 1

—A new beginning—just as if it were the very first day of Bullock's August Clearance—energies tensioned to greater accomplishments, because of the splendid inspirations of August 1 for "The One Sale of the Year."

—Fundamentally—another day for the Clearance of much stock merchandise at prices almost incredibly low—

—Another day in the long program of specially purchased offerings equally impressive in the light of value—

*But above all—A new day of Opportunity in which every section of Bullock's will be embraced*

—A new day of Service upon which every fiber of Bullock's will be concentrated.  
—A singularly impressive economy occasion which should re-echo many of the busy scenes that characterized the opening hours of this great event.

*The remarkable vigor of silk buying—  
of cotton goods and of Woolens  
buying should go on*

—There should be no lull in the purchasing of Trim-  
mings, of Hosiery, Gloves, Hand Bags, Jewelry,  
Handkerchiefs, Neckwear, Toilet Goods, Stationery,  
Ribbons, Silverware, etc.

—The buying of misses' and women's wearing ap-  
parel—Suits, Coats, Dresses, Hats, Blouses, Swea-  
ters—Silk, Cotton and Knit Underwear—Corsets,  
Negligees, Wash Dresses—all should be attractive  
to a degree—

—Bullock's August Sale of Furs should come in for  
its own emphasis—certainly no woman should ignore  
its economies—

—Children's Shoes, Dresses, Underwear, Hosiery,  
Hats and other things of note should be made subject  
to Bullock's August Clearance savings, too.

—Bedding, Draperies, Rugs, Lamps, Furniture—  
priced to double the value of every shopping moment  
Wednesday—

—Bullock's Art Needlework and Gift Store—Bul-  
lock's Gift Balcony—Bullock's Luggage and Golf  
Shop—all vitally concerned—

—The Store for Men at Bullock's will compete for  
value attention.

—And Bullock's Basement Store—itsself replete with  
values—will maintain a place of prominence in  
Wednesday's activities—

—Again the merchandise is here—active selling has  
but cleared the way for reserve stocks to take their  
places in the lines of values—

—Bullock's considers them every bit as exceptional  
as any—many will consider them more so—certainly  
no one should forego investigation—

—Bullock's August Clearance is an institution of im-  
pressive proportions.

—An institution of Ideals that aim toward "the sat-  
isfaction of every customer."

—An occurrence that measures its success by Friend-  
ships won through value-giving—through Sincerity  
and Service—

## Wednesday---August 1

—A new beginning of  
Bullock's August Clearance  
"The One Sale of the Year"

## SEEKING THINGS

Now they have caught a 1600-pound  
tuna off the New Jersey coast. Last week  
it was a 900-pound mackerel. Why is it  
that the biggest fish stories come from the  
wettest parts, or is it natural that they  
should?

## AN EVEN BREAK

Two or three of the large corporations  
producing jelled jazz are about to manufac-  
ture their phonograph records in this city.  
It is perfectly natural that a town that is  
breaking all records should make a whole  
lot of them.

## MATTER OF FORM

The national Women's party has adopted  
the form for the constitutional amend-  
ment for equal rights which they are now  
demanding. But possibly some of the young  
members of the party could have shown  
a more attractive form.

## THE DIFFERENCE

The other day a sweet-voiced singer en-  
tered a den of four strange lions and lulled  
them to a peaceful sleep. We will  
bet the Hot Dog Jazz Band to duplicate  
this feat. There wouldn't be saxophone  
players enough to go 'round with the lions.

## THE ONLY LURE

It is significant of the off game that in  
three rich fields in this territory more money  
has been put in than has been taken out.  
This in spite of the fact that the wells are  
producing as no wells in this country have  
ever produced before. Chasing oil is a sport  
in which more than half the players lose  
when they win.

## BANKER PRODUCTION

Signal Hill is signalling another world's  
record. In less than two years it has pro-  
duced more than 100,000 barrels of oil for  
each acre of its immense field. No other oil  
territory has been able to show anything  
like that, even where the field is twenty  
years old. If the mound builders had bored  
a hole in Signal Hill and started a fire 7000  
years before Noah had his flood it would  
still be burning.

## TWO-CYLINDER REPUBLIC

Germany is said to be apprehensive of  
two distinct revolutions. In one large sec-  
tion the Communists are expected to take  
up arms and be assisted by the Russian Bol-  
shevists. In another wide district the mon-  
archists are drawing the sword and will  
give battle for a return to the Hohenzol-  
lern or other royal leadership. Maybe Ger-  
many could get a-going if she had two revolu-  
tions as a starter.

## THE FROG HAT

At the recent Paris races there was a  
vivid reminiscence of the silken tile for men.  
The pot had rather lost its popularity  
for afternoon affairs, but it seems that it  
can come back strong—in Paris. There was  
a time when piano-tuners, painless dentists  
and newspaper reporters were wont to wear  
hat and Prince Albert coats as a part  
of the day's work. They were uniformed  
like the lawyers, the doctors and the preach-  
ers. But now the four-quarter lid is never  
seen save after dark—and not often then.  
It will take more than a hint from Paris to  
restore its lost luster. The American who  
lumps around in a feverish readiness is tak-  
ing no chances on a stiff bean-guard. It  
would be as full of dents as a concertina.  
The soft lid is too thickly established to be  
displaced through any reported revival of  
the silken plug.

## OUR SCHOOL SYSTEM

A special committee of the Chicago  
chamber of Commerce put in a year study-  
ing costs and methods of public education  
in the United States. Practically all of the  
larger and hundreds of the smaller cities  
were reviewed by the committee and their  
survey is about to be printed in book form.  
The information should be valuable and re-  
cent scandals in the Chicago Board of Edu-  
cation would indicate that the conclusions  
drawn should be locally applied. The in-  
spection for the work was the desire to  
know whether the public was really getting  
the worth of its money in the matter of the  
education of the young. The commission  
announces that the facts which their survey  
has revealed prove that the citizens of the  
country will have to consider limiting ex-  
penditures for some branches of education  
and also possibly changing some forms of  
taxation, as well as otherwise modify our  
educational policy in order to place it on  
a sound and practical basis. The rising  
percentage of those receiving higher educa-  
tion is an outstanding point of value. In  
1900 only one pupil in ten entered high  
school after completing the lower grades.  
In 1923 this proportion was one in three.  
Public funds are distributed among the dif-  
ferent classes of schools as follows: Ele-  
mentary, \$795,000,000; high schools, \$246,-  
000,000; universities, \$58,000,000; techni-  
cal schools, \$33,000,000; normal schools, \$18,000,-  
000; colleges, \$11,000,000. The cost per pu-  
pil each year in elementary schools ranged  
from \$29.75 in Savannah, Ga., to \$107.41 in  
Meriden, Ct. In the large cities it ranged  
from \$47 in St. Louis to \$55 in Cleveland.  
Per capita costs for high schools ran from  
\$24 in Boston to \$119 in Philadelphia.

## FLOWERS—AND TEARS

Sadly, sometimes with a sob, the busting  
that decorated the streets of Los Angeles  
in anticipation of the President's visit  
was yesterday removed. A fog came in  
from the sea and it rained in our hearts as  
it rained in the city.

Los Angeles had arrayed itself in gala at-  
tire to welcome its distinguished visitor.  
Our hearts were glad; for this community  
has prospered under the present adminis-  
tration as never before in all its history;  
and we were about to greet the great leader  
who, by his wise and conservative adminis-  
tration of national affairs, has made such  
prosperity possible.

But the flags are now furled and the other  
decorations laid away, while nearly 1,000,-  
000 people in the city alone await with sad-  
dened but hopeful hearts the latest bulletins  
from the bedside of the President in  
San Francisco.

News of his illness brought an awakening  
to hearts that were growing callous in the  
midst of our prosperity. We quickly be-  
came accustomed to accept the blessings  
that we find in our path, without giving  
much thought or consideration to the source  
from which they are derived.

We had known that Los Angeles was the  
one white spot in the country that was  
never dimmed during the immediate years  
of reconstruction after the war; but it was  
not until a revolt of nature threatened to  
still forever the voice and the brain of our  
great leader that the truth was brought  
home to many as to what that loss would  
mean.

Comforting bulletins came from his phys-  
icians yesterday afternoon and the faces of  
the crowds in the streets were lighted as  
though the sun had suddenly broken  
through the clouds. It was as though one  
walking in fancied security had seen the  
earth suddenly open and clings at his feet.  
The President is not the whole of the  
Federal administration. There are men of  
tested and proved loyalty and efficiency at  
the head of the principal departments of  
the government. But the President is the  
cement that welds these parts together in  
a single stable edifice.

For Harding is unlike any of the other  
Presidents of recent years. His acts and  
utterances have shown that he is more gen-  
tle and more thoughtful of the aspirations  
and of the tribulations of the individual. In  
simplicity and earnestness of utterance he  
recalls Lincoln. The main plank of his  
platform was tranquillity for the masses  
after the passions, the excitement and the  
horrors of the World War.

His every act since his inauguration has  
been to lighten the burdens of the people  
and to make the path of progress smooth.  
The head of the richest and potentially the  
most powerful nation on the earth, his every  
gesture toward other peoples has been one  
of friendship. Never has he rattled the sab-  
er; never has a word of menace passed his  
lips. Even for Russia he has had only  
words of kindness and hope. He freely  
promises recognition as soon as the Rus-  
sian people will constitute a government  
under which security will be offered to life  
and property.

A commission which he appointed is now  
in the City of Mexico trying to work out  
with the Mexican government a system of  
guarantees that will make recognition pos-  
sible. His policy in regard to the recog-  
nition of other governments is not dogmatic  
or complicated. It is simple but fundamen-  
tal. He will grant recognition to no gov-  
ernment that will not protect the life and  
property of American citizens who are tem-  
porary residents of the territory under its  
jurisdiction.

In his addresses on his western tour the  
President ever stressed that the people of  
the United States are a Christian people and  
that the government which they have estab-  
lished should realize that it has moral as  
well as material obligations to fulfill.  
Like Lincoln, he is adamant in his demand  
and he holds that those who will fully  
violate the written laws must pay the  
penalty which the laws themselves have im-  
posed. He tolerates no conscientious ob-  
jectors, who violate a law because it is the  
personal opinion that it is oppressive.

As each of us watches from afar the pro-  
gress of the battle the President is fighting  
against disease, with the possibility, al-  
though not a probability, of a fatal issue,  
each has an opportunity to consider what  
his own conduct means to the country and to  
realize how fortunate, above all other na-  
tions on earth, America has been to have  
such a leader in so critical a time.

## BOY SCOUTS IN AFRICA

The Governor of Kenya Colony in  
Africa recently made an interesting re-  
sult of the effect of the Boy Scout move-  
ment among the natives under his care.  
The British Conservator of Forests has evi-  
dently conferred an inestimable boon upon  
his charges by teaching them the Scouts'  
rules of conduct.

The chief benefit derived was from  
teaching them to conserve the forest. In-  
terest in the Scout idea gave them a sense  
of their duty to one another and those who  
might come after them. Where formerly a  
native in need of wood simply called forth  
in the forest and cut down the first tree  
handy, he now selects the tree carefully,  
and plants another in its place. Deeds of  
great daring, and touching instances of  
self-sacrifice have been done by the Kenya  
Scouts, who are considered by anthropolo-  
gists quite low in civilization.

The greatest difficulty encountered was  
in teaching the idea that they must do  
"one good deed a day." Hosts of the na-  
tives would come to the house of the or-  
ganization secretary and explain that they  
just could not think of a good deed to do.  
They would fairly beseech him to provide  
them with a good deed specifically for the  
day, and he would meet this emergency by  
having each supplicant plant a tree. He ex-  
plained, however, that this was not the  
true meaning of the injunction, and that it  
was much better to think up your own good  
deed and perform it alone. Eventually the  
natives reached the point where they could  
do this, and Kenya Colony, in the Governor's  
report, is practicing the Golden Rule with a  
vim, and the simple natives are exerting  
themselves daily to perform one or more  
good deeds.

## THE BIG DOINGS

If Henry Ford should become Presi-  
dent he would probably build a peace ship  
that would make the Leviathan look like a  
yawl. Then, accompanied by the Marine  
Band and William Jennings Bryan, he would  
proceed to establish harmony upon the face  
of the globe.

## "I'm Home!"

(Copyright 1928 by Public Ledger Company)

## BOBBED HAIR

Superior Judge Thomas Graham of  
San Francisco has a friendly word of ad-  
vice for the ladies. "If you want to keep  
your husbands," says the jurist, "bob your  
hair." As an average of 1500 divorce cases  
pass in gloomy review before the judge  
every year, he feels that he is in a posi-  
tion to know whereof he speaks.

Despite this large number, a bobbed-  
hair wife has never appeared before the  
judge in the role of either plaintiff or de-  
fendant. Those with long tresses bring  
their marital woes to the court daily, but  
the sisters with the shortened locks seem  
to abide with their spouses in a state of  
beatific content. The reason, the judge  
declares, is that they always look neat  
and attractive, even at the zero hour of  
breakfast.

In common with many other advisers on  
matters pertaining to matrimony, Judge  
Graham holds that most love is lost at the  
breakfast table. It is well known that  
many a lovely lady presents a sorry spec-  
tacle in the early hours of morn, before she  
is bedecked with her war paint and has  
dressed her hair. A simple brushing,  
coupled with a few seconds of time, suffices  
to give bobbed locks a groomed appearance,  
and the wife presents a more appetizing  
appearance across the matrimonial board  
than with disheveled locks partially concealed  
by a breakfast cap that has passed its  
first state of pristine elegance.

This is almost the first brief on record  
in favor of the damsel with cropped  
tresses, and added to the statement of  
surgeons at the San Francisco Emergency  
Hospital to the effect that possessors of  
bobbed hair have never committed suicide  
in that city, may start a rush to the  
barber's chair. According to the chief sur-  
geon, those who bob their hair invariably  
have cheerful, optimistic dispositions, and  
therefore no desire to shuffle off this mortal  
coil. Perhaps it is the disposition, and not  
the appearance at breakfast, that keeps  
them out of court.

## FEEDING THE FISHES

There never was a time before any-  
where, in any way, when so much attention  
was paid to the general needs of humanity.  
It's wonderful, too, what small details com-  
mon to all humanity in this ceaseless  
endeavor to add to the comforts or neces-  
sities of life.

Fish, for instance, is a necessity fast get-  
ting into class A along with bread and dairy  
products. Fish prevents thousands of Chi-  
nese and Japs in the Far East from starv-  
ing to death. It has saved the polar regions  
from complete depopulation. A fishless  
ocean would reduce millions to the "Easy  
Green" class, bring the present com-  
ponents of Easy street to the bread-line limit  
and wipe out the submerged tenth.

Wherefore it is plain that human kind  
needs fish; and, of course, if we want fish  
to feed us we must first feed them. Or at  
least we must make sure that the supply of  
fish food in the ocean doesn't run short.  
Some of the finest fishing grounds are not  
ministering to the wants of mankind as  
they used to do years ago. The demand in-  
creases, but not the supply. So science has  
been investigating the food habits of fish  
with an idea of boosting their birth rate  
and growth. Fish, their preservation and  
extension is a subject that touches us more  
nearly in our own homes than what be-  
comes of the Turks or the Armenians.

Now fish in their ways are not so unlike  
humans in their habits. The biggest fish  
eats the next size smaller and these in turn  
the ones a little smaller still and so on down  
the line till you come to the smallest of all.  
And these, not having more fish to feed on,  
eat algae and kelp and seaweed.

Science has discovered that the big fish,  
most desired by their two-footed friends  
ashore, are getting scarcer because the kelp  
and algae that pass up the scale through  
various reincarnations for their sustenance  
are getting scarcer in the bed of the ocean.  
Hence, since the hopes of the race are

bound up with the fortunes of fish, science  
is turning an intelligent eye on the kelp and  
algae beneath the ocean waves. And plans  
are on foot to cultivate these fields as a  
dry-ground farmer cultivates his alfalfa.  
Thus hopes are held out to us that there  
will be a better supply of big fish in the  
near future.

## THE HOTEL CHAPEL

The fact that there is a chapel in the  
new Biltmore Hotel prompts a newspaper  
to remark that this is the last word in  
luxury in religion. It adds that "it is a la-  
zy religion that needs chapels in hotels." Not  
necessarily. It is in serene conformity with  
the growing idea of taking religion into the  
business world. It is barely possible that  
there is an advertising value in the estab-  
lishment of a chapel within the walls of a  
fashionable hotel, but the inspiration is  
itself a worthy and commendable one. Let  
the traveler have his place and influence  
for prayer.

## HOW IT STARTED

BY JEAN NEWTON

The Almanac  
America's first almanac was published at  
Cambridge, Mass., almost 300 years ago. It  
was the second thing printed on the first  
printing press brought over and set up in  
Cambridge.

The author of the almanac was Capt. Wil-  
liam Pierce, mariner. He was a notable  
man in the colony and made more voyages  
between America and England than any  
other man of his day. He and his good  
ship, the Lyon, brought over many famous  
people, including Capt. Pierce and one of the  
colonists were killed.

No copy of his first almanac is known to  
be in existence. If one were found it would  
be invaluable.

## RIPPLING RHYMES

THE TRUTH SERUM

The smooth promoter came to sell some  
stock in Gusher's Petrol Well. "Here is  
your greatest chance," he swore, "to bring  
Dame Fortune to your door. This well is in  
the richest field, and countless millions  
are waiting to be yours. I interrupted him to  
say, 'I got some wonderful things today, in-  
cluding a fellow's frame, he sees that falsehood  
is a shame; like Washington, in days gone  
by, he simply cannot tell a lie. So I will  
shoot some in your arm; then you may  
boost your coal oil farm.' I overpowered  
him then with ease, and shot Truth Ser-  
um in his knees. He slowly settled in a  
chair, and said, 'My oil well is a snare;  
it is as dry as 'dobe bricks; it is a trap to  
catch the hicks. In all the land for miles  
around no sign of oil was ever found; there  
isn't oil enough down there to grease a  
bald man's fringe of hair. I feel that se-  
rum wearing off, so lead me to the water-  
ing place, where I may gently soak my head,  
and thus recall the things I've said.' Oh,  
wondrous serum that will make the fakes  
disappear! I always keep a keg in  
store, and agents who approach my door  
must take a shot or I'll refuse to listen to  
their get-rich news. WALT MASON.

## DECEIVING THE PRESS

A law just enacted in Minnesota makes  
giving a false statement willfully to a news-  
paper a misdemeanor.

This bill is aimed particularly at those  
who make the telephone abet their efforts  
to spread falsehood. The false notice of a  
wedding or engagement or death or divorce  
generally owes its origin to one of these  
practical jokers. Such notices frequently  
cause trouble and bring pain to their waka,  
but the practical joker never stops for this.  
His untamed sense of humor leaves him no  
space for forethought.

Any practical law that will discourage the  
cruel, if thoughtless, practical joker, must  
have the support of a wide public.—[New  
York Sun.

## PEN POINTS

By the Staff

Henry may run, anyhow. A Ford  
can run anywhere.

The French troops have occupied  
Limburger. Oh, cheese it!

Henry Ford is 60. But his boom  
is not going anything like that.

Really, the pedestrians ought to  
watch out where the automobilist  
is going.

Somebody's coat-tail is on fire in  
that police clean-up. His identity  
will soon be disclosed.

What a hunting preserve the Sig-  
nal Hill, Huntington Beach and  
Santa Fe Springs country would  
make. It is full of wild cats.

Finland will make a commercial  
treaty with the United States. The  
Fins have become weary of being  
referred to as "the poor fish."

The Cuno Cabinet in Germany is  
about to leave the country on its  
back. Possibly the new body will  
be more reasonable from the stand-  
point of France.

The trouble with the farmers of the  
Middle West is that they have  
placed too many eggs in the wheat  
basket. And no administration can  
do anything about that.

It is all right for a clergyman to  
kiss the bride at the ceremony, but  
it is bad form to wait a month to  
do it. The bride and groom did the  
latter and he is in all kinds  
of hot water.

In the National League the situation  
is "crooical." In the American  
League it looks like a runaway for  
the Yanks. In the Pacific Coast  
League—let's talk about some-  
thing pleasant.

The suggestion of Secretary Mel-  
lon that the income tax ought to be  
reduced may mean that he is about  
to place himself in the hands of his  
friends in 1934. He is certainly  
making a noise like a candidate for  
something.

Albert Chevalier, the English  
comedian singer, is dead. Twenty  
years ago he was more popular  
than Harry Lauder is today. Who  
of the old theatergoers will not  
recall his singing of "My Old  
Dutch" and "The Old Kent Road"  
with pleasure. He was an artist  
in his finger tips.

South of Mason and Dixon's line  
a new bill of rights is being writ-  
ten by the States. It is a declara-  
tion of independence of political  
action and of freedom from domina-  
tion of that partisan faction which  
would pledge the Democrats of the  
South to a policy of repudiation and  
secession. Southern Democrats  
have made it plain that they will  
not support the plan of their north-  
ern brethren to reopen the prob-  
lem question by dignifying it as  
a national party issue. The "Solid  
South" seems to be "solid" for the  
national honor.

## THIS IS THE DAY

The first national census was  
started in the year 1790.  
The first cable street car in the  
world was operated in San Fran-  
cisco in the year 1873. Andrew Halli-  
die was the inventor of the system.  
It was later introduced in New  
York, Chicago, Philadelphia and  
London.

Colorado was admitted into the  
Union in the year 1876.

## CLOSE-UPS OF EUROPE

BY S. FRED ROGUE

Hungering After Trivialities.  
"Common Love of Soap" Unites  
British-Speaking Peoples.  
Adverse Trade Balance Alarms  
British Financiers.  
New "Red Alliance" Threatens  
England and Germany.

Perhaps the most interesting phe-  
nomenon of the present situation  
in Europe is the hungering after  
trivialities, the callous indifference  
of the masses to the great political  
and economic storms that threaten  
to tear its civilization up by the  
roots.

Vastly more interest is manifest-  
ed in London and Paris in sporting  
and theatrical events than in the  
economic collapse of Central Eu-  
rope and in the unemployment and  
its attendant misery for the poor  
that hangs like a threatening cloud  
over England and France.

Financiers and statesmen are  
fully awake to this menace. But  
while they seek vainly for some  
policy that will stem the tide of  
dissolution, the people as a whole  
show no visible concern. They are  
very much more interested in persons  
than in things.

They have ceased questioning the  
stars or trying to peer into the fu-  
ture. "Sufficient for the day is the  
evil thereof."

It is to this callousness of the in-  
dividual that may be attributed the  
drifting policy that caused the Al-  
lied governments to grant the  
Turks at Lausanne anything they  
wanted, provided they would dis-  
band their armies and not kick up  
a row.

Persons can be visualized, can be  
met face to face. They are con-  
crete entities. But things are in-  
visible. And, to the unthinking  
masses, that which is not visible to  
the eye does not exist.

In no other generation of mod-  
ern times has this callousness been  
so universal; and to no other gen-  
eration has it been so menacing.  
For it must be remembered that  
under modern democracy, these  
masses who are so callous or so  
blind select the governments that  
are responsible for national policy.

Fifty years ago this lack of interest  
of the masses in public affairs  
led to security. It simplified the  
government of great states. He-  
reditary governments, composed of  
but a few individuals, regulated  
foreign affairs without the partici-  
pation of the masses. There were  
no elections to be carried. The  
House of Lords in England pos-  
sessed the veto power; and there  
was no danger of the House of  
Commons taking hold in its teeth.

Treaties were negotiated in se-  
cret and their terms were not  
known to the public in general. If  
their government had made what  
would now be by existing "discon-  
solable surrender" the people never  
knew.

To accentuate the difference one  
has but to reflect that during the  
entire time the Anglo-Saxon Al-  
liance was in effect the American  
government was never able to find  
out its exact terms. The Russian  
Czar and the German Kaiser ne-  
gotiated and signed a treaty hand-  
ing over the two nations in its teeth  
out their own chancelleries know-  
ing its terms.

Now the peoples decide impor-  
tant questions in which they refuse  
to be deceived. Under such con-  
ditions governments are bound to  
drift. And, when great hulks are  
drifting about on the seas of diplo-  
macy, collisions are inevitable.

James M. Beck, Solicitor-General  
for the United States, visited En-  
gland on the eve of Premier Hal-  
dane's statement in Parliament con-  
cerning the Ruhr situation. The  
entente that had united England  
and France was hanging in the bal-  
ance.

Just what the terms of that en-  
tente were neither he nor any other  
member of the American govern-  
ment knew. But it was appar-  
ent that European affairs were  
in a state of crisis. He was deeply  
and sincerely interested; for he  
possessed sufficient vision to know  
what would be the probable effect  
on his own country of another Eu-  
ropean war.

At a function of the English  
Speaking Union in London a few  
days later he dwelt upon this cal-  
lousness and the possible effect of  
international relations. Until he  
actually reached England he had  
thought our own people callous as  
to national and international af-  
fairs. But, compared with what he  
found on the other side, he was con-  
vinced that we are extremely alert.

He had waited anxiously to get  
the first copies of the London pa-  
pers. "When I landed in England,"  
he said, "the first place of news I  
saw blazoned in the streets was  
flaming headlines, 'Susanne in  
Tears.'"

He found the English more in-  
terested in the tennis championship  
than in the disruption of the En-  
tente.

It remained for the English to  
discover, by the way, that our Soli-  
citor-General is in all class by his  
self as an after-dinner speaker.  
The next day after that address  
all London was talking about him.  
His observation concerning the  
bond that unites the English-speak-  
ing people caught the British fancy.  
Two London newspapers dignified  
it by what the English term a  
"leading article."

In introducing Mr. Beck, Winston  
Churchill said he once heard an  
American speaker say on the Irish  
question, "England never remem-  
bered Ireland never forgot and  
America never knew," but that the  
epigram now ought to be: "En-  
gland has remembered, Ireland has  
begun to forget, and America un-  
derstands." This was greeted with  
discreet applause.

In responding Mr. Beck said:  
"There is another bond that unites  
the English-speaking world; that is  
their common love of soap." That  
tickled the English fancy; and it  
will live, although it is not likely  
to be very popular on the continent.

And, while the English public is  
interested in the tennis champion-  
ship and what horses are likely to

win the racing classics, the Eng-  
lish statesmen and diplomats are aver-  
ing over the problem of the in-  
crease in England's adverse trade  
balance. Unemployment is grow-  
ing and there is no immediate pros-  
pect of a change for the better.

When the French entered the  
Ruhr, according to the government  
opinion in England, they struck a  
deadly blow at British trade. For  
the month of June British im-  
ports amounted to \$9,307,663 British  
pounds sterling, and the exports  
totalled but \$2,585,559 pounds ster-  
ling. It is the worst showing for  
many months, although they have  
all been bad since the French  
crossed the Rhine.

England is a gigantic commer-  
cial corporation and, when trade is  
so bad as that, the people are en-  
titled to insist that the government  
shall do something to bring about  
a change. They are now agreed  
that trade is bad and unemploy-  
ment increasing because the French  
have stopped the operation of the  
Ruhr industrial district. Unless the  
government can do something to  
give them a different point of view  
its days are numbered.

Perhaps you would like to know  
how Armenia has fared in the re-  
cent Treaty of Lausanne. I have  
just been reading a cable which  
tells of 10,000 Armenian refugees  
arriving at Aleppo in Syria.

They were feeling the vengeance of the  
Turks, who, under the treaty, will  
be left to work their will upon the  
Christian minorities within the  
Turkish empire. More than 100,000 refugees  
arrived at Greek, Italian and Bul-  
garian destinations from Thrace. The  
French merchants are leaving Con-  
stantinople, which goes back to the  
Turks.

It is the most humiliating re-  
vender of Christian nations since the  
the Mohammedans since the last of  
the crusades, more than 600 years  
ago.

As far as the Franco-German sit-  
uation is concerned, the only  
change is the increasing breach in  
the Entente and the growing men-  
ace of what the European Commu-  
nists now call the "Red Alliance."

This alliance is to include the Rus-  
sian Bolsheviks, the German rad-  
icals and the British Labor party.  
Never since the Reds of Europe  
been so confident that the hour of  
collapse of the German and British  
governments is at

## Of Interest to Women.

### SOCIETY

BY CORA YOUNG

Mrs. Constant Bilcke (Margaret Gray) entertained yesterday at her home on Fourth avenue with an elaborate luncheon and bridge party, complimenting her sister, Mrs. Ernest Best (Maud Gray). The rooms glowed with masses of yellow blossoms and the merry company included Meses. Harold Waters, Dean Markham, F. Fowler (Dorothy Knott), Harold Vander Lick, William Banning, Miss Catherine Howard, Mary McAllister, Mary Haggerty, Helen Orendorff, Virginia and Winifred Martin, Alice Hicks, Dorothy Wellborn, Mary and Dorothy Gray, Caroline Eshman, Katherine Wignmore, Helen Garden, Florence McGarry, Agnes Eisenmayer, Genevieve Maler, Marian Kellogg, Roberta Crutcher, Rowena Marguerita, Camille Schneider, Gwendolyn Longyear, Geraldine Goodwin, and Miss Ethel Best of New York.

**Bachelor Dinner**  
Mr. Horace E. Wadsworth, who is to wed Miss Dorothy Platt tomorrow evening, gave his final bachelor dinner last night at the Midway Country Club. The dinner was sumptuous and these friends whom Mr. Wadsworth had asked to join him at his last bachelor feast, were in gay and festive mood. There were present Messrs. Stanley T. Robinson, David Henderson, Hudson Drake, Fred E.

Huggins, Russell C. Lockhart, Frank Calvin, Louis Granger, Stanford Dunlap and Robert Johnson.

### Betrothal Announcement

The betrothal of Miss Audrey Workman, daughter of Mr. and Mrs. Boyle Workman to Nathaniel Jeffras, son of Mr. and Mrs. Charles Jeffras, was formally announced yesterday afternoon at a tea which Mrs. and Miss Workman gave at their home on South Broadway street. The group of close friends who assisted Mrs. and Miss Workman were Mrs. Charles Jeffras, Mrs. William J. Chichester, Mrs. James G. Scarborough, Jr. (Eleanor Workman), Mrs. William H. Workman, Jr., Mrs. Harry Watson, Mrs. Raymond Pison (Emily Earl), Miss Mary Workman and the Meses Ruth Dockweiler, Rosemary Hancock, Elizabeth Dwyer, Catherine Chaney, Lucia Turner, Leontine Bayer, Polly Hampton, Betty Bettigen, Corinne Ross. The marriage, which will take place in the autumn, will unite two of the old and prominent families of Southern California.

### For Mrs. Dyche

Mrs. George Dyche of Wheaton, Ill. is visiting her sister, Mrs. Alfred Barstow of Alhambra. Mrs. Dyche is a niece of the steel magnate, Elbert H. Gary. Yesterday at the Los Angeles Country Club Mrs. Charles Lippincott of Hollywood gave a charming luncheon in honor of Mrs. Dyche. On Saturday evening Mr. and Mrs. Walter Wheat entertained for Mrs. Dyche at their home on Windsor Boulevard, the guests including Mr. and Mrs. Alfred Barstow of Al-

hambra, and Mrs. Gertrude Wedderburn of Washington, D. C. After the concert in the Uplifters' Grove in Santa Monica Canyon Sunday afternoon Mr. and Mrs. Wheat took a group of guests to the Los Angeles Country Club for dinner, among whom were Mrs. Dyche, Mr. and Mrs. James L. Collins, and daughter Louise, Mr. and Mrs. David F. Collins, and Mrs. Margaret Forner. The unique and attractive mountain home which Mr. and Mrs. Wheat are building in Santa Monica Canyon is nearing completion and their friends are looking forward to a gay "house warming."

### Box Party

Mrs. R. D. Shepherd entertained a group of friends with a box party Sunday evening to see Jane Cowell as "Juliet." Following the performance, Mrs. Shepherd took her guests to her home on Sycamore avenue for an informal supper. There were present Jane Cowell, Mr. and Mrs. Lou Payne (Mrs. Leslie Carter), Mr. and Mrs. H. C. Firman, Mr. and Mrs. Merle Armistage and Mrs. Cornelius Vandepbilt.

### Garden Tea

Miss Dorothy Moser gave a large garden tea Saturday afternoon at her home on South Van Ness avenue. This happy affair was in honor of Miss Muriel Work of Olympia, Washington, who is Miss Moser's house-guest.

### Luncheon Party

The Ambassador was the setting for the luncheon which Mrs. Caroline E. Smith gave Monday for Mrs. Louis Carter, Mrs. L. S. Montgomery, Mrs. R. D. Shepherd, Mrs. Charles Jeffras and Mrs. William E. Woollett.

### To School in Italy

Miss Gloria Wase Kennedy, daughter of Mr. and Mrs. Edwin Kennedy, is spending the month of August visiting Mr. and Mrs. Robert C. Pew in Toledo, O. In September Mr. and Mrs. Kennedy will join their daughter in New York and sail for Europe, where Miss Kennedy will go to school in Florence, Italy. Miss Kennedy was graduated from the Westlake School for Girls here in June.

### Chinese Luncheon

Mrs. Ralph Demming and Mrs. Wendell McLaughlin were hostesses at luncheon at the Mary Louise Thursday, complimenting Mrs. Reginald Bell of Oakland, who is visiting friends in Los Angeles. The Chinese Room for the setting for the luncheon, which was followed by an afternoon of bridge. Dainty place cards marked the places for Mrs. Reginald Bell, Mrs. Mark Lewis, Mrs. May Randle, Mrs. M. Munson, Mrs. H. L. Howie, Mrs. Rex Starr, Mrs. Jane Pendergrast, Mrs. Rhinehart, Mrs. J. Johnson, Mrs. Vera Lewis and the hostesses.

### Society Notes

Mr. and Mrs. Richard J. O. Culver and small daughter Bernadine, Mr. and Mrs. Louis A. Denker and daughters Cecilia and Louise, and Mrs. C. J. Kubach, have gone for a six weeks' motor tour up the Coast to Canada. Mr. and Mrs. Arthur Wright are entertaining Mrs. Wright's sister, Mrs. Hugh J. Boyd, and Mr. Boyd of Portland, Or. Mrs. Emma Loeffler de Zaruba and little son Lionel are at Big Bear Lake. Upon their return, in about two weeks, they will motor to San Francisco, where they will be accompanied by Mrs. Reynolds and his sister-in-law, Miss Millie Remansky.

## LEAVES FOR ISLAND VACATION Will Return to City in September

Mrs. J. Harvey McCarthy

AMONG the well-known people who have recently sailed for the Hawaiian Islands is Mrs. J. Harvey McCarthy, with Mr. McCarthy and their son, William Harvey McCarthy. They motored to

San Francisco, accompanied by Mrs. McCarthy's aunt, Mrs. Ann Burchett of St. Sterling, Ky., and her husband, Mr. Burchett. Mrs. McCarthy will not return to the home on Elden avenue until September.

Bear Lake. Upon their return, in about two weeks, they will motor to San Francisco, where they will be accompanied by Mrs. Reynolds and his sister-in-law, Miss Millie Remansky.

Dr. L. G. Reynolds has left for Rochester, Minn., where he will take up work as a physician. He is accompanied by Mrs. Reynolds and his sister-in-law, Miss Millie Remansky.

### DIET FOR CHILDREN

There is a difference among physicians as to what is best for children under 7 years of age. While a small amount of meat is given to children under 7 years of age, other tender meats are given to children over 7 years of age.

It is true that children under 7 years of age should be given a diet of pure vegetable food. This is because the digestive system of children under 7 years of age is not adapted to the amount of meat food to balance the diet at the deficiencies of the root.

We have to remember that a greater quantity of food is necessary because they have to eat for growth as we eat.

Meat broths made in a manner have very little nutritive value. The nature of stimulants, way to make beef or mutton that they have no nutritive value. To chop the meat fine, tie salt but no water, and place in a kettle of

## Railroad Are N

A common improvement way guaranteed fact.

The railroads were found to be a basis for six months August 31, 1920, a guarantee has been made.

Under the Commission to earn a fair return, the percentage of question for determining.

The transportation "In the exercise of the rates, the Commission... will, and... income equal, as an... of the... provide the people transportation."

For the two years was fixed at 6 per cent Commission to 5.7.

In no year, however, return contemplated.

Year  
1920  
1921  
1922  
1923

It is entirely clear, unless the earnings of the railroads in 1920, 1921 and 1922.

Since January 1, whole have been better three preceding years, the Interstate Commerce Commission.

The Transportation in railroad rates. On "Rates have advanced... while railroad... took over the railroad."

The price of transportation is... has increased in like... Constructive suggestion.

Omaha, Nebraska, August 1, 1923.

Use this to Stop Neuritis Pain

No matter where your pain is located, the back, shoulders, arms, legs, etc., you can get relief without resorting to drastic measures.

Most people do not know that rheumatism, neuritis, bad teeth, other ailments often and up to the neck, can be relieved by the use of Tronol.

The quickest way to reach the inflamed nerve is by absorption. Tronol goes in its work, applied over the spot where you pain, and is taken up through the skin to the inflamed nerve, helping to bring it back to healthy condition.

Tronol contains no drugs—no opiates, no narcotics, no harmful substances.

Get a good supply of Tronol from the nearest drug store. Price 50¢ per bottle. Tronol, Mfg. Chemicals, 685 Broadway, New York.

# Railroad Earnings Are Not Guaranteed

A common impression exists that railroad earnings are in some way guaranteed by the Government. This is not a fact.

The railroads were paid for the Federal Control period a fixed rental and were given an option for continuance of this basis for six months thereafter. This arrangement expired August 31, 1920, since which time nothing even resembling a guarantee has been in effect.

Under the Constitution a railroad has always been entitled to earn a fair return upon its property devoted to the public use, the percentage which constituted such fair return being a question for determination by the courts.

The transportation act says:

"In the exercise of its power to prescribe just and reasonable rates, the Commission shall... adjust such rates so that carriers... will, under honest, efficient and economical management... earn an aggregate annual net railway operating income equal, as nearly as may be, to a fair return upon the aggregate value of the common carrier property, giving 'due consideration' to the transportation needs of the country and the necessity... of enlarging such facilities in order to provide the people of the United States with adequate transportation."

For the two years ending March 1, 1922, such fair return was fixed at 6 per cent. Since then it has been reduced by the Commission to 5.75 per cent.

In no year, however, have the railroads secured the fair return contemplated by the Act, as the following will show:

Year	Percentage Actually Earned
1920	0.33
1921	2.3
1922	4.14

It is entirely clear, therefore, that the law in no sense guarantees the earnings of the railroads. If it did, the Government would owe the railroads more than a billion dollars for deficits in 1920, 1921 and 1922.

Since January 1, 1923, the earnings of the railroads as a whole have been better than for the same period in any of the three preceding years, but the rate of return is still lower than the Interstate Commerce Commission has prescribed as reasonable.

The Transportation Act has not been the cause of increases in railroad rates. One of the authors of the Act has said: "Rates have advanced simply because the cost of maintenance and operation has more than doubled since pre-war days while railroad rates, taken as a whole, are now about 54 per cent higher than they were before the Government took over the railroads at the beginning of the year 1918."

The price of transportation can only be reduced as the cost of transportation is reduced and the railroad's cost of living has increased in like proportion to that of the individual. Every effort, however, is being made to reduce it.

Constructive suggestions are always welcome.

C. R. GRAY, President.  
Omaha, Nebraska, August 1, 1923.

## Use this to Stop Neuritis Pain

No matter where your pain is located—the back, shoulders, arms, legs or feet—you can get relief without taking anything to deaden the nerves.

Most people do not know that neuritis, neuralgia, had teeth, colds, rheumatism, neuralgia, and other ailments often end up in neuritis or nerve inflammation.

The quickest way to reach the distressed nerve is by the Transminal. Transminal gets in its work. Transminal is taken up through the skin of the arm. It soothes and heals inflamed nerves, helping to restore them to healthy condition.

Transminal contains no drugs—no poison, no opiates.

Get a good supply of Transminal from any drug store. Price \$1. The Transminal Company, 400 S. Western St., Los Angeles.

## INCREASES IN SALARIES TO BE MADE

More Pay for Heads of Federal Law Enforcement Departments Proposed

Due to the increased business transacted in the offices of United States Attorney, United States Marshal and Clerk of the United States District Court, salary increases are about to be granted. The business transacted in these offices is said to have grown 1000 per cent within the past few years.

The salary of Charles N. Williams, clerk, has been raised from \$4500 to \$5000. It is understood the pay of U. S. Atty. Butts will be raised from the present sum of \$4000 to \$5000 or \$6000 and the allowance of Marshal Bittel from \$4000 to \$5000 or more.

Formerly there were but two deputies in the clerk's office; whereas there are now nine. The United States Attorney had only two assistants but now has seven and six stenographers. There are a dozen clerks in the clerk's office. The Attorney-General is now the sole judge of the salary to be paid in these offices.

DUFFY MYSTERY  
YET UNSOLVED

Actor of Same Name Said to  
Have Disappeared Before

Film Comedian Asserts He  
Saw Man in City

Frank Egan Offer to Back  
Play is Revealed

A new angle was injected yesterday into the mystery surrounding the disappearance of Henry Duffy, theatrical producer and actor, when investigation disclosed that a man named Duffy, who was supposed to have disappeared under similar circumstances about eight years ago, was in the city last night.

The actor and producer Henry Duffy is reported to have disappeared last Saturday only a few hours before the out-of-town troupe of the play "Dust of Erin," in which he had planned to present Tom Moore at the Mason theatre, Monday at 4 p.m. Mr. Moore and T. W. Gibson, author of the play, decided to cancel its engagement.

SEARCH IS FRUITLESS  
Although the police have been notified and an extensive search has been instituted by friends of Mr. Duffy, nothing more definite had been discovered until a late hour yesterday than a rumor that the producer had been seen by a motion-picture director last Sunday in Riverside. According to the information supplied by Mr. Rollins, a Henry Duffy disappeared from a hotel in Preempt, leaving his trunks, money and most of his belongings to the theatrical company which was at the time on the verge of being stranded at a one-night stand. Mr. Rollins asserts that he has seen and spoken to this man within the past three weeks in Los Angeles. It was disclosed yesterday that Frank Egan of Egan's Little Theatre, with whom Henry Duffy was staying up until his disappearance Saturday, had offered to take up the financial backing of the show that might give its scheduled performance Monday night, but that this offer was rejected.

RISE TO FILM STARDOM IS RAPID  
Signed for Leads With Harold Lloyd

Jobyna Ralston

A THREE-YEAR contract to play opposite Harold Lloyd in his feature comedies was signed yesterday by Jobyna Ralston, 19 years of age, and one of the screen's outstanding beauties. The contract was awarded to Miss Ralston as a result of her excellent work in "Why Worry?" a six-reel comedy which the comedian completed just before he left for his vacation in New York. Miss Ralston ascended the ladder to stardom in quick time. She left her home in Tennessee three years ago and came to New York to go on the stage, having been trained for professional work by her parents. A short time after her arrival she found herself playing in "Two Little Girls in Blue," a George M. Cohan production. She also appeared in a number of other New York productions. Later she entered the motion-picture field, playing extra parts until selected by Max Linder for a role in his burlesque "The Three Musketeers." Her work in this production attracted Lloyd's attention and he recommended her to Hal Rouch. The latter placed her under contract to play leads in his single-reel comedies. When Lloyd married Mildred Davis, his leading lady, he immediately chose Miss Ralston to succeed his wife in his pictures. The signing of Miss Ralston is Lloyd's first official act as head of his own production organization. Lloyd is practically ready to begin work on his independent venture. His first story is completed and he intends to begin active production next Monday at the Hollywood studios.

EX-WIFE OF  
CHAPLIN TO  
WED AGAIN

Mildred Harris Admits  
She Is Engaged to Eastern  
Capitalist

BY GRACE KINGSLEY  
"Yes, I am going to marry again. My future husband is an eastern capitalist. He will be here in September and then we shall announce our engagement."

That's what Mildred Harris said yesterday when I met her on a vacation at Long Beach, where she was living at the Virginia Hotel with her mother.

Miss Harris wouldn't state just when she was going to be married, but admitted it probably would be within the year. Then she said she was going to go back to work within a few weeks. "I have a couple of offers for pictures, and expect to go back to work within a few weeks," she explained. "I have a couple of offers for pictures, and expect to go back to work within a few weeks."

Miss Harris never looked prettier than she does these days. The ex-wife of Charles Chaplin has gained a little weight, just enough to make her look younger and prettier than ever.

RUSSIAN WAR HERO  
GETS PLACE IN FILM

MANY VETERANS ARE FINDING  
SCREEN WORK A FINE  
WAY TO RECOVER

Many World War heroes are finding film work in Hollywood an excellent means of convalescing from their wounds, the latest to enter the service of cinema being Louis Steklov, former member of the Forty-eighth Siberian Regiment, one of the crack cavalry regiments of the late czar.

Steklov, who has been only five months in this country and does not speak English, made his first motion-picture appearance in the chariot charge of Cecil B. De Mille's forthcoming Paramount picture, "The Ten Commandments." His lack of English at first relegated him to the role of rider, as a soldier passenger, but his knowledge of horse work asserted itself and his driving was one of the features of the charge.

Steklov is the possessor of four military medals for bravery, of which three were presented personally by the czar for services in the Russian-Japanese War.

NEBRASKANS PLAN PICNIC  
Former residents of Nebraska are being invited by Hon. E. H. Hineshaw to attend a picnic rally in Bixby Park, Long Beach, on Saturday. County registers will be open all day and a program of addresses and songs will be given.

NEW ADMIRERS  
ARRIVE IN CITY

Louisianians Returning From  
Tacoma Convention

Spokesman Says Los Angeles  
is Wonderful City

Sees No Other Place Like It  
in United States

A group of new admirers of Los Angeles arrived here yesterday in the members of the Louisiana delegation of the National Homebased and Building and Loan Association, who are stopping in the city for a few days on their way home from the annual convention of the organization in Tacoma.

"This surely is a wonderful city," said Harry McEnery, treasurer and assistant business manager of the Times-Picayune of New Orleans, who is a member of the party. "There's no place like it in the country and our people have fallen in love with it. We plan to spend some days here to see the sights before resuming our journey home." Our first trip was to Mt. Lowe this afternoon.

ON PLEASURE EXCURSION  
The Louisiana party, which numbers sixty-five persons, travels in two Pullmans. They have made this trip a pleasure excursion and visited St. Paul, Bangor, Lake Louise, Vancouver and Seattle before reaching the convention city.

"We are visiting San Francisco, Los Angeles and the Grand Canyon on our way home," said Mr. McEnery. "The pleasure of the trip has been marred by only one incident—the sudden death of a member of our party."

The delegation, which represents the strongest branch of the homebased association in the South, came in for special honors at the convention, according to Mr. McEnery. "We were given the freedom of the city in Tacoma and conducted a parade in the streets headed by the American flag and with our members carrying sugar-cane poles of cotton and bolls of rice as exemplifying the chief products of our state."

## NEW PRESIDENT IS WOMAN

The Louisiana delegation elected a woman, Miss Anna E. Rae of Niagara Falls, as the next president of the national association, which is the first time a woman has been elevated to this office.

At San Francisco the delegation paid its respects to the superintendent of education of that city, J. G. Gwynn and Mrs. Gwynn, former New Orleans residents.

The homebased association is a national organization with branches in most of the States of the Union. It was founded to build homes for families on a nonprofit basis. It is most largely represented in Pennsylvania, New Jersey and Ohio.

The State of Louisiana is prospering, according to Mr. McEnery. "It was never a more flourishing condition," he declared. "We have had to contend to some extent with Ku Klux Klan activities recently, but we expect to eradicate this menace at the next election. The mass of the people of Louisiana are against the Klan and also against all forms of religious bigotry and sectional discord and aim to stand for the enforcement of law and order."

STUDIO GOES  
TO SICKBED  
FILM STAR

Needed Scenes in "Held to Answer" Shot in Boudoir of Evelyn Brent

Motion-picture paraphernalia, director, electricians and camera-men were transferred from the studio to the bedside of Evelyn Brent.

Brent, popular English star, in early to prevent further loss of time and expense brought about by her illness.

Miss Brent suffered a nervous breakdown following a collapse of various sorts of continuous work before the camera.

Producers. Her absence from the Metro Studio where "Held to Answer" was under production, has held up the completion of this picture, involving many thousands of dollars. Further delay would not only have brought about cancellations of many bookings already made, but also would have upset the general releasing schedule of the Metro Studio.

When Miss Brent was confronted with the situation yesterday she volunteered to leave her bed and take a chance with her health by going to the studio to complete her work for the production. Her physician, Dr. Leo Schuman, would not permit this.

Miss Brent then suggested that if she could not go to the studio the picture be brought to her bedside. There were only a half-dozen close-up scenes of her face necessary to complete the film and these could be taken in her bedroom.

Director Harold Shaw and Milton Brown, head photographer of Metro, accompanied by electricians and other assistants accordingly moved their paraphernalia from the studio into Miss Brent's boudoir at the Hillview Apartments in Hollywood, where, under the nurse's watchful eye, they obtained the needed scenes for the production.

LITTLE DORRIS'S CHURCH  
"Little Dorris's Church," the old parish church of St. George the Martyr, Southwark, has reached the 800th anniversary of its foundation. The chief modern interest in the church is its association with Dickens, who went there in after years. In "Little Dorris" he made his heroine rest there on the night after the party, when she was too late to return to the Marshalsea Prison. Later in the novel "Little Dorris" was married at the church.

## STREET REPAIR EVIL IS H

City Council Prepares to Take Action to Abate Inconvenience to Public

The City Council is making ready to take steps to prevent public inconvenience through torn-up streets, especially in the congested district.

The Council yesterday received a communication from the Chamber of Commerce asking that the public service corporations be compelled to work continuous shifts on street jobs.

President Workman of the Council asked Chief Deputy City Attorney Whitehead how the City could compel this. Mr. Workman pointed out that the city worked day and night shifts on all of its jobs.

Mr. Whitehead said the Council had power to adopt an ordinance covering the matter, to be enforced by the police department upon recommendation of the Board of Public Works. This may be done.

But Councilman Allan yesterday addressed a letter to the city departments and public service corporations having to do with underground service lines in which he suggested a means of avoiding much of the difficulty to street traffic. He did this as chairman of the Public Utilities Committee of the Board of Public Works.

Councilman Allan yesterday addressed a letter to the city departments and public service corporations having to do with underground service lines in which he suggested a means of avoiding much of the difficulty to street traffic. He did this as chairman of the Public Utilities Committee of the Board of Public Works.
